22. Any District which the Local Government, on account of the fewness of its Parsi inhabitants, shall deem it inexpedient to include within the jurisdiction of any District Matrimonial Court, shall be included within the jurisdiction of the Parsi Chief Matrimonial Court for the territories under such Local Government where there is such Court.

23. A seal shall be made for every Court constituted under this Act, and all decrees and orders and copies of decrees and orders of such Court shall be sealed with such seal, which shall be kept in the custody of the presiding Judge.

The Local Governments shall, in the Presidency Towns and Districts subject to their respective governments, respectively appoint persons to be Delegates to aid in the adjudication of cases arising under this Act, after giving the local Parsis an opportunity of expressing their opinion in such manner as the respective Governments may think fit.

The persons so appointed shall be Parsis; their names shall be published in the Official Gazette; and their number shall, within the local limits of the ordinary original Civil jurisdiction of a High Court, be not more than thirty, and in Districts beyond such limits, not more than twenty.

Power to appoint new Delegates.

25. The appointment of a Delegate shall be for life. But whenever a Delegate shall die, or be desirous of relinquishing his office, or refuse or become incapable or unfit to act, or be convicted of an offence under the Indian Penal Code or other law for the time being in force, then and so often the Local Government may appoint any other person being a Parsi to be a Delegate in his stead; and the name of the person so appointed shall be published in the Official Gazette. XLV of 1860.

Delegates to be deemed public servants.

26. All Delegates appointed under this Act shall be considered to be public servants within the meaning of the Indian Penal Code. XLV of 1860.

Selection of Delegates under sections 19 and 20 to be from those appointed under section 24.

27. The Delegates selected under the nineteenth and twentieth sections to aid in the adjudication of suits under this Act, shall be taken under the orders of the presiding Judge of the Court in due rotation from the Delegates appointed by the Local Government under the twenty-fourth section.

28. All Advocates, Vakeels, and Attorneys-at-Law entitled to practise in a High Court shall be entitled to practise in any of the Courts constituted under this Act, and all Vakeels entitled to practise in a District Court shall be entitled to practise in any District Matrimonial Court constituted under this Act.

Courts in which suits to be brought.

29. All suits instituted under this Act shall be brought in the Court within the limits of whose jurisdiction the defendant resides at the time of the institution of the suit.

When defendant has left British India.

When the defendant shall at such time have left British India such suit shall be brought in the Court at the place where the plaintiff and defendant last resided together.

In any case, whether the defendant resides in British India or not, such suit may be brought in the Court at the place where the plaintiff resides or at the place where the plaintiff and the defendant last resided together, if such Court grants leave so to do.

Imprisonment for 7 years or more.

(1) if the plaintiff has acquiesced in the act after the plaintiff came to know of the same; or

(2) if the suit has been filed more than two years after the plaintiff came to know of the same.

Joining of co defendant.

33. In every such suit for divorce on the ground of adultery, the plaintiff shall, unless the Court shall otherwise order, make the person with whom the adultery is alleged to have been committed a co-defendant, and in any such suit by the husband the Court may order the adulterer to pay the whole or any part of the costs of the proceedings.

(d) For Judicial Separation.

Grounds for Judicial Separation.

34. Any married person may sue for judicial separation on any of the grounds for which such person could have filed a suit for divorce, or on the ground that the defendant has been guilty of such cruelty to him or her or their children, or has used such personal violence, or has behaved in such a way as to render it in the judgment of the Court improper to compel him or her to live with the defendant.

Decree in suits of divorce or judicial separation.

35. In any suit under sections 30, 31, 32 or 34 whether defended or not, if the Court be satisfied that any of the grounds set forth in those sections for granting relief exist, and the grounds therein set forth for withholding relief do not exist, and there is no other just ground why relief should not be granted, the Court shall decree such relief accordingly.

(e) For Restitution of Conjugal Rights.

Suit for restitution of conjugal rights.

36. Where a husband shall have deserted or without lawful cause ceased to cohabit with his wife, or where a wife shall have deserted or without lawful cause ceased to cohabit with her husband, the party, so deserted or with whom cohabitation shall have so ceased, may sue for the restitution of his or her conjugal rights and the Court if satisfied of the truth of the allegations contained in the plaint, and that there is no just ground why relief should not be granted, may proceed to decree such restitution of conjugal rights accordingly.

Counter-claim by defendant for any relief.

37. In any suit under this Act, the defendant may make a counter-claim for any relief he or she may be entitled to under this Act.

(f) General.

No suit to be brought to enforce marriage or contract arising out of marriage when husband is under 16 years or wife under 14 years.

38. Permanent Alimony.

40. The Court may, if it shall think fit at the time of passing any decree under this Act or subsequently thereto on application made to it for the purpose, order that the husband shall, to the satisfaction of the Court, secure to the wife provided she remains chaste and unmarried such gross sum or such monthly or periodical payment of money for a term not exceeding her life, as having regard to her own property, if any, her husband's ability and the conduct of the parties, shall be deemed just, and for that purpose may require a proper instrument to be executed by all necessary parties and suspend the pronouncing of its decree until such instruments shall have been duly executed. In case any such order shall not be obeyed by her husband it may be enforced in the manner provided for the execution of decrees and orders under the Code of Civil Procedure, 1908, and further the husband may be sued by any person supplying the wife with necessaries during the time of such disobedience for the price of such necessaries. V of 1908.

The Court, if satisfied that there is a change in the circumstances of either party at any time, may at the instance of either party vary, modify or rescind such order in such manner as the Court may deem just.

Payment of alimony to wife or to her trustee.

41. In all cases in which the Court shall make any decree or order for alimony it may direct the same to be paid either to the wife herself, or to any trustee on her behalf to be approved by the Court, and may impose any terms or restrictions which to the Court may seem expedient, and may from time to time appoint a new trustee, if for any reason it shall appear to the Court expedient so to do.

Disposal of joint property.

42. In any suit under this Act the Court may make such provisions in the final decree as it may deem just and proper with respect to property presented at or about the time of marriage which may belong jointly to both the husband and wife.

Suits may be heard with closed doors.

43. In every suit preferred under this Act, the case shall be tried with closed doors should such be the wish of either of the parties.

Validity of trial.

44. Notwithstanding anything contained in section nineteenth or section twentieth where in the case of a trial in a Parsi Matrimonial Court not less than five Delegates have attended throughout the proceedings, the trial shall be not invalid by reason of the absence during any part thereof of the other Delegates.

Determination of questions of Law and procedure and of fact.

46. In suits under this Act all questions of law and procedure shall be determined by the presiding Judge; but the decision on the facts shall be the decision of the majority of the Delegates before whom the case is tried:

Provided that, where such Delegates are equally divided in opinion, the decision on the facts shall be the decision of the presiding Judge.

Appeal to High Court.

47. An appeal shall lie to the High Court from the decision of any Court established under this Act, whether a Chief Matrimonial Court or District Matrimonial Court, on the ground of the decision being contrary to some law, or usage having the force of law, or of a substantial error or defect in the procedure or investigation of the case which may have produced error or defect in the decision of the case upon the merits, and on no other ground:

Provided that such appeal be instituted within three calendar months after the decision appealed from shall have been pronounced.

Liberty to parties to marry again.

48. When the time hereby limited for appealing against any decree dissolving a marriage shall have expired, and no appeal shall have been presented against such decree, or when any such appeal shall have been dismissed, or when in the result of any appeal any marriage shall be declared to be dissolved, but not sooner, it shall be lawful for the respective parties thereto to marry again, as if the prior marriage had been dissolved by death.

V.—OF THE CHILDREN OF THE PARTIES.

Custody of children *pendente lite*.

49. In any suit under this Act, the Court may from time to time pass such interim orders and make such provisions in the final decree as it may deem just and proper with respect to the custody, maintenance and education of the children under the age of 16 years, the marriage of whose parents is the subject of such suit, and may, after the final decree upon application by petition for this purpose, make, revoke, suspend or vary from time to time all such orders and provisions with respect to the custody, maintenance and education of such children as might have been made by such final decree or by interim orders in case the suit for obtaining such decree were still pending.

Orders as to custody of children after final decree.

Settlement of wife's property for benefit of children.

50. In any case in which the Court shall pronounce a decree of divorce or judicial separation for adultery of the wife, if it shall be made to appear to the Court that the wife is entitled to any property either in possession or reversion, the Court may order such settlement as it shall think reasonable to be made of such property or any part thereof, for the benefit of the children of the marriage or any of them.

VI.—MISCELLANEOUS.

Prohibition of bigamy.

55. A Parsi who has contracted a marriage under Act XV of 1865 or under this Act, even though he may change his religion or domicile, so long as his or her wife or husband is alive, and such marriage has not been lawfully dissolved under the decree of a competent Court under Act XV of 1865 or under this Act, shall remain bound by the provisions of this Act, and among other things shall not contract another marriage under this or any other law, and another marriage so contracted shall be void.

56. (*1*) This Act shall commence and take effect on the 1st day of 193 , and shall extend to the whole of British India. Its provisions shall extend to all marriages between Parsi Zoroastrians contracted in British India, and to such marriages between Parsi Zoroastrians contracted outside British India as the Governor General in Council may prescribe from time to time with such provisions as to registration and jurisdiction of Courts as the same authority may prescribe.

STATEMENT OF OBJECTS AND REASONS.

The Parsi Marriage and Divorce Act at present in force was passed in 1865. Since then circumstances have greatly altered and to some extent there has also been a change in the sentiments and views of the Parsi community. Hence a necessity for some change in the law has been felt for years. The Parsi Central Association took up the question in 1923 and appointed a Sub-Committee to suggest amendments. The Sub-Committee submitted a report which the Association got printed and circulated for opinion to most other Parsi associations as well as prominent members of the community both in Bombay and outside. Many suggestions were made, and among them by the Trustees of the Bombay Parsi Punchayet who had the advantage of seeing the suggestions of others. The Central Association adopted the suggestions of the Punchayet Trustees and reprinted the whole and again circulated it. Fresh suggestions were thereupon made in the press, on the platform, by associations and individuals. These were fully considered by the Trustees as well as the Association and the present draft is the result. On the whole it represents the views of the great majority of the community, and has been approved by leading Parsis like Sir Dinshaw E. Wacha and the late Rt. Hon. Sir Dinshaw F. Mulla.

EXPLANATION OF THE CLAUSES OF THE BILL.

In drafting this Bill as far as possible the arrangement and language of the Act of 1865 have been adhered to, many of its sections being reproduced verbatim, and a statement is given in the Appendix showing the corresponding sections of the two. The principal changes and reasons for the same are noted in brief below.

Clause 2.—This corresponds to the present section 2, but the definitions of Number, Section, British India, Local Government and High Court have been dropped as they occur in the General Clauses Act, 1897, which will become applicable to this new Act. The definition of Desertion has been adopted from the English Matrimonial Causes Bill.

Clause 3.—This corresponds to the present section 3, the only change made in which is in the table of prohibited degrees of relationship. The new table is based on clear principles in accordance with Parsi religion and custom, and is more concise and at the same time more comprehensive than the present one.

Clause 4.—This corresponds to the present section 4. The alteration is made to suit altered circumstances. The present law provides for the dissolution of a previous Parsi marriage only before contracting a new one, as in 1865 it was not contemplated that a Parsi could contract any other than a Parsi marriage under the Parsi law. At present cases of such other marriages are fairly common. Such a marriage while subsisting ought to be a bar to a marriage under Parsi law, exactly as it would be to a Christian marriage or one under the Special Marriage Act, and there is little doubt that a Court would take the same view even at present under the general law. The alteration puts the matter beyond doubt.

Clause 10.—This is a new provision for the registration of divorces.

Clause 14.—This corresponds to the present section 12. The latter makes all the signatories guilty of forgery if any the slightest detail, whether material or not, be incorrect, *e.g.*, if the age of a party be given as 35 instead of 37. The use of the words "does not know to be true" makes even a person acting in good faith on information apparently reliable guilty if his information happens to be incorrect. The alteration is intended to remedy these defects.

Clause 17.—This new clause lays down general principles on which most discreet judges would act and have acted. (*See* Peshotam *ver.* Mehrbai I.L.R. 13 Bom. 302, and Avabai *ver.* Khodadad I.L.R. 45 Bom. 146.)

Clause 19.—This corresponds to the present section 16, and the only change made is the reduction in the number of Delegates necessary for hearing a case from 11 to 7. As the total number is 30, and cases sometimes continue for days, the reduction is required for the relief of the Delegates.

Clause 24.—This corresponds to the present section 21. The addition of the provision about giving the local Parsis an opportunity of expressing their opinion is in accordance with present practice, so that there will be no change in it.

Clause 29.—This corresponds to the present section 26. The last paragraph has been added chiefly to provide for cases where the husband deserts his wife and goes about from place to place. Judges have been given the power to prevent abuse of this privilege.

Clause 32.—This corresponds to the present section 31, and it is in this that the largest amount of alteration has been made in accordance with the present sentiments and views of the community. The sexes have been put on an equality as respects adultery. Several new grounds for divorce have been added. The time within which suits should be filed has been defined instead of leaving the parties in doubt as the wording of the present section 32 leaves them. The reasons for most of the additions will be evident, but some remarks as respects some of the sub-clauses will not be out of place.

Sub-clause (b).—This replaces the present section 27 which is dropped. The declaration of nullity makes the children, if born, illegitimate which is most undesirable. Hence it has been made a ground of divorce.

Sub-clauses (g) and (h).—Wilful desertion for 3 years, or such conduct as compels the plaintiff to live apart for that period, is a grave violation of the marriage tie, and the aggrieved party should have the choice of putting an end to it.

Sub-clause (i).—Separation for 3 years or more secures the elimination of temporary causes such as anger, excitement, temptation, etcetera. It can only be due to some lasting cause and must mean practically permanent separation. In such a case it would be best that the parties be divorced with a chance of leading a happier life with some other partner in a legitimate manner, instead of leading an immoral life as sometimes happens, or at least an unhappy one as is often the case.

Clause 33.—It is the same as the last paragraph of present section 30.

Clause 34.—It corresponds to the present section 31. The present section allows only the wife to sue for separation, but this clause following the English law allows either party to do so, for proper reasons. It follows the English Matrimonial Causes Bill in allowing a suit for separation on the same grounds as a suit for divorce.

Clause 35.—It corresponds to the present section 32. Among the reasons for refusal to grant relief delay and collusion are not specifically mentioned. Delay is definitely provided for in the relevant sub-clauses of clause 33. Collusion in the sense of consent of both parties to the commission of the act which forms the substantial ground for divorce, such as adultery, is also definitely provided against. Collusion in the sense of a conspiracy between the parties to mislead the Court as to the material facts is provided against in the very words of this clause. The Court has to be satisfied that the grounds for granting relief exist, and it would be quite open to the Judge and Delegates who would be intelligent and experienced members of the community to disbelieve the evidence: this is the position even at present.

Clause 36.—It corresponds to the present section 36, of which the last paragraph has been dropped. A decree under this section should be left to be executed under the Code of Civil Procedure like other decrees of the same kind.

Clause 37.—This is a new provision to facilitate procedure.

Clause 39.—This corresponds to the present section 33. The provision as to alimony during suit has been extended to all suits under the Act, as there is no good reason to limit it only to suits for divorce and judicial separation.

Clause 40.—It corresponds to the present section 34. As in the preceding clause the provision has been extended to all suits under the Act. A further change has been made in the wording of the first two lines to make explicit what is implied in the word "on." The proviso as to the wife's remaining chaste and unmarried is reasonable. The alteration in the last four lines is to facilitate procedure. It is improper to compel the wife to file a separate suit when she can obtain the same relief more easily in execution. The second paragraph allowing variation in the order has been added to clear up doubts as there have been conflicting decisions on this point.

Clause 42.—This is new. According to Parsi custom recognised in many cases by the Courts certain presents at the time of marriage become the joint property of the husband and wife. A definite order as to the disposal of such joint property is desirable when they separate.

Clause 44.—This corresponds to the present section 39. The number of Delegates who must be present throughout has been reduced as the total number sittings at first has been reduced under clause 19.

Clause 45.—This corresponds to the present section 40. The amendment is formal.

Part VI of the present Act including section 46 to 50 has been dropped, as it has become unnecessary in view of the provisions of section 25 of the General Clauses Act, 1897, Chapter III, and sections 386 to 388 of the Code of Criminal Procedure, and sections 63 to 70 of the Indian Penal Code.

Clause 51.—This corresponds to the present section 51. This clause not only includes the power to make rules and regulations given to the High Court under the present section, but also other powers, such as the power to call for reports and transfer cases, which serves as a wholesome check on subordinate Courts.

The present section 52 has been dropped in view of the provisions of the General Clauses Act, 1897.

Clause 52.—This is new. Sub-clause (*a*) is in accord with the general desire of the community. Sub-clause (*b*) gives to Magistrates powers which are already exercised in practice. As these orders are subject to revision by the High Court, and are also liable to be varied or cancelled by a competent Civil Court under section 489 of the Code of Criminal Procedure as modified by Act XVIII of 1923 there is little likelihood of permanent injustice in any case.

Clause 53.—This is a new clause. The second part of it makes the new Act applicable to pending cases. The first part involves a principle which would probably be applied by Courts without express enactment, but it seems best to leave no doubt in the matter.

Clause 54.—This is a new clause meant to ensure parental control over a Parsi minor, who might otherwise try to evade the provisions of clause 3 as to age and parental consent by alleging that he or she had changed his or her religion or domicile. Probably even now the Courts would enforce such a rule, but it is best to make sure.

Clause 55.—This is a new clause which accords to a monogamous Parsi marriage the same protection that is accorded to a Christian marriage as also to a marriage under the Special Marriage Act. It prevents another marriage under any other law while the Parsi marriage subsists.

It is supplementary to clause 5, as perhaps it may be argued that the word "marriage" therein applies only to a Parsi marriage. At the same time there is very little doubt that a Parsi who contracted such other marriage would be convicted of bigamy under the general law. The present clause is intended to leave no doubt.

Clause 56.—This relates to the extent of the Act. When the present Act was enacted in 1865 it was declared to be in force in the whole of British India under section 53. That section was repealed by Act XV of 1874 and the Act of 1865 was declared to be in force in the whole of British India except the Scheduled Districts, and by Act XIV of 1874 it was declared to be in force in a large number of specified Scheduled Districts. It is now proposed to extend it to the whole of British India. The additional provision for its extension to marriages outside British India is meant chiefly to meet the difficulties that have arisen as respects Parsi marriages in Cantonments which although under British jurisdiction are legally outside British India.

(*2*) The Committee shall be responsible for the conduct of all prosecutions of offences under sections 38, 39, 40, 41 and 42.

STATEMENT OF OBJECTS AND REASONS.

In view of the catastrophic fall in the price of rubber in recent years and the consequent difficulties with which rubber producers have been faced, representatives of the industry in the main rubber-producing countries, namely, India, Ceylon, Malaya, British North Borneo, the Dutch East Indies, French Indo-China, Sarawak and Siam, have formulated an international scheme for the restriction of the export, production and stocks of rubber. The Governments of the territories concerned have also entered into an agreement to take effective steps to put the scheme into operation. The main features of the scheme, which is closely modelled on the International Tea Restriction Scheme, are:—

(*i*) that the restriction scheme should remain in force in the first instance up to the 31st December, 1938, and its continuation thereafter should be subject to a review of the position by the Governments concerned;

(*ii*) that, during the currency of the scheme, the exports of rubber should be restricted to certain percentages of predetermined basic quotas;

(*iii*) that the import of rubber should be prohibited except under licence;

(*iv*) that the stocks of rubber held by owners should be restricted;

(*v*) that existing areas under rubber should not be extended except for exclusively experimental purposes, and in such cases only up to a maximum of one quarter of one per cent. of the areas under rubber at the date of commencement of the restriction scheme; and

(*vi*) that the replanting of areas under rubber should be restricted to a maximum of 10 per cent. of the area under rubber at the date of commencement of the scheme during each control year, and to 20 per cent. during the whole currency of the scheme.

2. The results of a referendum issued to all known estates have been examined and it appears that an overwhelming majority of producers have expressed themselves in favour of the scheme. The Governments of Madras and Burma, within whose jurisdiction the bulk of the rubber in India is cultivated, have agreed to the restriction of planting of areas already leased. By virtue of their accession to the inter-Governmental agreement referred to above, this Government is committed to giving legislative sanction to the scheme, subject to the approval of the Indian Legislature. The Governments of the Federated Malay States and Ceylon have already passed laws to give effect to the agreement.

S. ABDULLAH, for *Director of Agriculture, Bengal.*

Dacca, the 1st October 1934.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 25th September 1934.

Preliminary Forecast of the Bhadoi Crops of Bengal, 1934-35.

(*Note.*—On an average of the five years ending 1932-33, the area under autumn rice in Bengal has represented some 6·5 per cent. of the total area under rice in British India.)

Character of the season.—Rainfall in February though defective was sufficient for the preparatory tillage. Later on due to prolonged drought field operations progressed slowly. From early April seasonable showers fell in East and North Bengal facilitating sowing operations a good deal. In some West Bengal districts there was insufficient rainfall at sowing time with the result that less area was brought under cultivation. Heavy rainfall in June caused water-logging of fields and damaged the crops in some East Bengal districts notably in Dacca, Mymensingh, Tippera and Noakhali. As a result of weak monsoon outturn has been affected more or less in some West and North Bengal districts. Elsewhere a fairly satisfactory crop is expected. Rangpur is the only district where a normal crop has been reported.

Acreage.—The total acreage sown with the different *bhadoi* crops this year is reported to be 6,301,100 acres as against 6,510,900 and 6,520,600 acres, respectively, in the corresponding and final forecasts of last year. Of this, the area under autumn rice is estimated at 5,562,900 acres as against 5,769,600 and 5,775,300 acres, respectively, in the corresponding and final forecasts of last year.

Outturn.—According to District Officers' estimates, the outturn of the different *bhadoi* crops for the Presidency works out at 73 per cent. of the normal this year as against 79 per cent. both in the corresponding and final forecasts of last year. The autumn rice is estimated to yield an outturn of 72 per cent. of the normal for the province this year as against 85 per cent. estimated by this department both in the corresponding and final forecasts of last year.

Director of Agriculture, Bengal (offg.).

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 28th September 1934.

First Forecast of the Winter Rice Crop of Bengal, 1934-35.

(*Note.*—On an average of the five years ending 1932-33, the area under winter rice in Bengal has represented some 17·9 per cent. of the total area under rice in British India.)

Character of the season.—At the outset the weather was practically dry and preparatory tillage for broadcast paddy progressed slowly. With seasonable showers in early April sowings were carried on satisfactorily. Occasional showers in May and June were favourable for preparation of lands for transplanted winter paddy and sowings in seed-beds and for growth of the germinated deep-water paddy. Heavy rain in June and sudden rise of rivers affected the crop in some important districts of East Bengal. Rainfall in July helped transplantation of winter paddy in lowland tracts, but in high lands the progress of the operation was slow owing to want of sufficient rain. Deficient rainfall in August delayed transplantation in West and parts of North Bengal; elsewhere the operation was normally active. Good rainfall in the middle of September further facilitated late transplantation. As a result of weak monsoon this year the area has been decreased considerably and the outturn is also likely to be affected in the high land tracts.

Acreage.—According to the figures returned by the District Officers, the total area under winter is 14,598,500 acres as compared with 15,384,300 and 15,498,700 acres in the corresponding and final forecasts of last year.

Outturn.—From the summary of the district returns appended, it will be seen that two districts report a normal crop of 100 per cent., 13 districts a crop varying from 75 to 96 per cent. and the rest below 70 per cent. of the normal.

According to the above estimates, the provincial outturn works up to 78 per cent. as against 84 and 81 per cent. of the normal estimated in the corresponding and final forecasts of last year.

K. McLEAN,

Director of Agriculture, Bengal (offg.).

Some of the special features of the fund are (1) that widowed daughters incapable of re-marriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. SUPPLEMENT.

Official Papers.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 3rd October 1934.

Second Forecast of the Cotton Crops of Bengal, 1934-35.

(*Note.*—On an average of the five years ending 1932-33, the area under the cotton crops in Bengal has represented some 0·2 per cent., of the total area under cotton in India.)

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore.

Character of the season.—As reported in the first forecast the weather was generally favourable both for sowing and for early period of growing. Subsequent conditions also proved beneficial to the growth of the crop. The present outlook is satisfactory, on the whole.

Sowings of late variety commenced in Midnapore under favourable conditions.

Area sown.—The area sown with early cotton is reported to be 72,903 acres this year as against 74,760 acres in the corresponding forecast of last year. Of the late crop an area of 400 acres is reported to have been sown this year in Midnapore as against the same estimate in the corresponding forecast of last year.

Director of Agriculture, Bengal (offg.).

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 1st October 1934.

Second Forecast of the Sugarcane Crop of Bengal, 1934-35.

(*Note.*—On an average of the five years ending 1932-33, the area under sugarcane in Bengal has represented some 7·2 per cent. of the total area under sugarcane in India.)

Character of the season.—At the outset the weather was generally favourable both for planting and for germination. Subsequent conditions also proved helpful to the growth except in parts of West Bengal, where prolonged drought somewhat affected the crop. On the whole, the season may be regarded as satisfactory for the crop.

Area planted.—The total area planted with the crop for the province is reported to be 275,900 acres this year as against 253,600 and 256,600 acres reported, respectively, in the corresponding and final forecasts of last year.

Outturn.—According to the estimates of District Officers, the average outturn of the crop for the province this year works out at 84 per cent. of the normal against 84 and 86 per cent., respectively, in the corresponding and final forecasts of last year.

Condition figure.—The condition figure for the cane crop is estimated at 84 per cent., as against a ten years' average of 83·9 per cent. This means that the condition of this year's crop is equal to about 100 per cent. of the ten years' average.

NOTIFICATION.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

Jalpaiguri.—No. 2241P.H.—9th October 1934.—In exercise of the power conferred by section 311 of the Bengal Municipal Act, 1932 (Bengal Act XV of 1932), the Government of Bengal (Ministry of Public Health) are pleased to make the following rules subject to which the Commissioners of the Jalpaiguri Municipality may allow communication-pipes to be laid down from the service-pipes of the Commissioners for the purposes of leading water to premises for domestic purposes only:—

Rules.

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may grant to any owner or occupier of a holding paying a water rate imposed under the provisions of Chapter VIII of the Bengal Municipal Act, 1932, on the annual value of such holding, when such annual value is not less than Rs. 200, a connecting-pipe from the service-pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only.

1. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes must apply for the same on the printed form "A" to be supplied free of cost at the municipal office. The conditions subject to which a house connection will be given are set out in the form, and the owner or occupier shall sign the statement undertaking to observe the rules before a house connection will be given.

2. A fee of Rs. 75 shall be paid to the Commissioners by such owner or occupier for each connection to a municipal main supply pipe before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules.

3. Each holding must have a separate connection to the municipal main supply-pipe, and an extension from the communication-pipe of one holding to another holding shall not be permitted.

4. The connection shall consist of two portions—

(*a*) the service-pipe from the street main to the boundary of the holding; including ferrule, stop-cock and check-pipes;

(*b*) the storage tank (or tanks) with service-pipe connecting to it from the boundary of the holding, also outlet-pipes, taps and other accessories as required.

5. The items referred to in clause (*a*) of rule 4 shall be provided and fixed by and at the expense of the Commissioners, and such pipes and fittings shall remain as their property.

6. The items referred to in clause (*b*) of rule 4 shall be provided and fixed at the expense of the owner or occupier and shall be maintained by him in good working order. The tank is to be suitably covered and protected and is to be provided with locked lid, ball-valve, stop-valve and overflow pipe.

7. The owner or occupier shall not permit the service-pipe, including the items referred to in clauses (*a*) and (*b*) of rule 4 or any part thereof to be altered. removed or interfered with by any person other than an authorised representative of the Commissioners, who shall be empowered by the Commissioners to alter or adjust the service-pipe as may from time to time be necessary for the maintenance of the requisite flow of water.

8. The tank referred to in rule 4 (*b*) shall be durable and water-tight, and the ball-valve and the other fittings shall be exact duplicates of standard samples kept in the office of the Commissioners and approved by them at a meeting. The storage tank or tanks shall be cleaned and sterilized quarterly at the expense of the owner or occupier under the supervision of an officer of the municipality.

9. Every storage tank shall be fitted with an over-flow pipe, the end of which shall project over the wall of the house and shall be placed in a conspicuous position. Discharge of water from the over-flow-pipe means that the ball-valve is failing to function, and the owner or occupier shall notify the waterworks officers every time he finds such discharge occurring.

10. Every owner or occupier of any holding, in respect of which a connection has been made under these rules, shall be entitled to supply of water corresponding to the annual valuation of such holding, according to the following table:—

GOVERNMENT OF INDIA.

The following Act of the Indian Legislature received the assent of the Governor General on the 8th September, 1934, and is hereby promulgated for general information :—

ACT No. XXXII OF 1934.

An Act to consolidate the law relating to customs duties.

WHEREAS it is expedient to consolidate the law relating to customs duties on goods imported into or exported from British India by sea and to customs duties on goods imported into or exported from British India by land; It is hereby enacted as follows:—

Short title, extent and commencement.

1. (*1*) This Act may be called the Indian Tariff Act, 1934.

(*2*) It extends to the whole of British India except the Chief Commissionership of Aden.

(*3*) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, appoint in this behalf.

Duties specified in Schedules to be levied.

2. (*1*) There shall be levied and collected in every port to which this Act applies, the duties specified in the First and Second Schedules.

(*2*) The Governor General in Council may, by notification in the Gazette of India, fix, for the purpose of levying the said duties, tariff values of any articles enumerated, either specifically or under general headings, in the said Schedules as chargeable with duty *ad valorem* and may alter any tariff values for the time being in force.

(*3*) Different tariff values may be fixed for different classes or descriptions of the same article.

(*4*) Nothing in this Act shall authorise the levy of customs duties on any article carried from one customs port in British India to another such port except salt, opium and spirit.

Levy of duty where standard rate and preferential rate are specified.

3. (*1*) Where in respect of any article a preferential rate of revenue duty is specified in the First Schedule if the article is the produce or manufacture of the United Kingdom or of a British Colony, the duty to be levied and collected shall be at the standard rate, unless the article is the produce or manufacture of the United Kingdom or of a British Colony and the article is determined, in accordance with rules made under sub-section (*2*), to be such produce or manufacture.

(*2*) The Governor General in Council may, by notification in the Gazette of India, make rules—

(*a*) for determining if any article is the produce or manufacture of the United Kingdom or a British Colony; and

(*b*) making provision in cases where at the time of importation proof is not forthcoming where required in accordance with the rules made under clause (*a*) that any article is the produce or manufacture of the United Kingdom or a British Colony—

(*i*) whereby duty may be levied at the standard rate and a refund given of the extra duty paid, if such proof is produced within a prescribed period, and

(*ii*) whereby duty may be accepted provisionally at the preferential rate on execution of a bond for the payment of the balance of duty if such proof is not produced within the prescribed period, and for the recovery of any balance due after the expiry of the prescribed period as if such balance were duty short levied within the meaning of section 39 of the Sea Customs Act, 1878. VIII of 1878.

(3) For the purposes of this section and of the First Schedule, the expression "United Kingdom" means the United Kingdom of Great Britain and Northern Ireland, and the expression "British Colony" includes a British Protectorate and any of the Mandated Territories of Tanganyika, the Cameroons under British Mandate and Togoland under British Mandate.

Power of Governor General in Council to alter protective duties.

4. (1) Where, in respect of any article chargeable under the First Schedule with a duty characterised in the third column thereof as protective, the Governor General in Council is satisfied, after such inquiry as he thinks necessary, that such duty has become ineffective or excessive for the purpose of securing the protection intended to be afforded by it to a similar article manufactured in India, he may, by notification in the Gazette of India, increase or reduce such duty to such extent as he thinks necessary either generally or in respect of such article when imported from or manufactured in any country or countries specified in the notification:

Provided that the duty leviable on any such article shall in no case be less than the duty leviable on a like article of British manufacture.

(2) The Governor General in Council may, by notification in the Gazette of India, prescribe the conditions subject to which articles shall be deemed to be of British manufacture for the purposes of this section and of the First Schedule.

Duties on imports and exports by land.

5. Where a customs duty at any rate prescribed by or under this Act or any other law for the time being in force is leviable on any article when imported into, or on any article when exported from, a port in British India, the Governor General in Council may, by notification in the Gazette of India, direct that a duty of customs at the like rate shall be leviable on any such article when imported or exported, as the case may be, by land from or to any territory outside British India, which he may, by a like notification, declare to be foreign territory for the purposes of this section.

Duty on salt, opium and spirit, when protected by a certificate.

6. (1) Salt, opium and spirit imported from any port in British India and protected by the certificate of any officer empowered in that behalf by the Governor General in Council or the Local Government, are chargeable with only the amount, if any, by which the duty leviable thereon under the First Schedule exceeds the duty shown by such certificate to have been already paid in respect thereof.

(2) The amount, if any, paid to the Government as the price of such salt or opium is not duty within the meaning of this section.

(3) Nothing in this section applies to spirit which is exported under bond for excise duty from one customs-port to another customs-port under the provisions of Chapter XIV of the Sea Customs Act, 1878. VIII of 1878.

Application of certain provisions as to duties and goods.

7. So far as regards the Presidency of Fort Saint George, the unrepealed provisions of the Madras Inland Customs Act, 1844, and so far as regards the Presidency of Bombay, the unrepealed provisions of the Bombay Land-customs Act, 1857, relating to the levy of duties and to dutiable goods shall, *mutatis mutandis*, apply to duties levied and goods liable to duty under or by virtue of section 5. VI of 1844. XXIX of 1857.

Additional import duty on bounty-fed articles.

8. (*1*) Where any country, dependency or colony pays or bestows, directly or indirectly, any bounty or grant upon the production therein or the exportation therefrom of any article and the article is chargeable with duty under the provisions of this Act, then, upon the importation of any such article into British India, whether the same is imported directly from the country of production or otherwise, and whether it is imported in the same condition as when exported from the country of production or has been changed in condition by manufacture or otherwise, the Governor General in Council may, by notification in the Gazette of India, impose an additional duty equal to the net amount of such bounty or grant, however the same be paid or bestowed.

(*2*) The net amount of any such bounty or grant as aforesaid shall be, from time to time, ascertained, determined and declared by the Governor General in Council, and the Governor General in Council may, by notification in the Gazette of India, make rules for the identification of such articles and for the assessment and collection of any additional duty imposed upon the importation thereof under sub-section (*1*).

Special import duty on sugar in certain cases.

9. (*1*) Where the rate of duty or other taxation imposed in any country, dependency or colony upon sugar not produced therein exceeds the rate of duty or other taxation imposed upon sugar produced therein by more than the equivalent of six francs per one hundred kilogrammes in the case of refined sugar or five francs and fifty centimes per one hundred kilogrammes in the case of other sugar, then, upon the importation of any sugar from such country, dependency or colony into British India, whether the same is imported directly from the country of production or otherwise, and whether it is imported in the same condition as when exported from the country of production or has been changed in condition by manufacture or otherwise, the Governor General in Council may, by notification in the Gazette of India, impose, in addition to any other duty or taxation imposed under this Act or any other law for the time being in force, a special duty not exceeding one moiety of such excess.

(*2*) The Governor General in Council may, from time to time, by general or special order, declare for the purposes of sub-section (*1*),—

(*a*) what articles or substances containing any saccharine matter shall be deemed to be "sugar" and what kinds of sugar shall be deemed to be "refined sugar" or "other sugar," respectively; and

(*b*) what sums in the currency of British India shall be deemed to be the equivalent of "francs" and "centimes," respectively.

(*3*) The amount of the excess referred to in sub-section (*1*) shall be from time to time ascertained, determined and declared by the Governor General in Council, and the Governor General in Council may, by notification in

the Gazette of India, make rules for the identification of sugar and for the assessment and collection of any special duty imposed upon the importation thereof under sub-section (*1*).

In contracts amount of increased or decreased duty to be added or deducted.

10. In the event of any duty of customs or excise on any article being imposed, increased, decreased or remitted after the making of any contract for the sale of such article without stipulation as to the payment of duty where duty was not chargeable at the time of the making of the contract, or for the sale of such article duty-paid where duty was chargeable at that time,—

(*a*) if such imposition or increase so takes effect that the duty or increased duty, as the case may be, or any part thereof, is paid, the seller may add so much to the contract price as will be equivalent to the amount paid in respect of such duty or increase of duty, and he shall be entitled to be paid and to sue for and recover such addition, and

(*b*) if such decrease or remission so takes effect that the decreased duty only or no duty, as the case may be, is paid, the purchaser may deduct so much from the contract price as will be equivalent to the decrease of duty or remitted duty, and he shall not be liable to pay, or be sued for, or in respect of, such deduction.

Duration of protective duties and power of Governor General in Council to modify or remit certain duties.

11. (*1*) When the duty specified for any article in the First Schedule is characterised as protective in the third column of that Schedule, that duty shall have effect only up to the date, if any, specified in the seventh column of that Schedule.

(*2*) If, after such inquiry as he thinks necessary, the Governor General in Council is of opinion that the duty specified in the First Schedule in respect of wheat has become unnecessary or excessive, he may, by notification in the Gazette of India, remit such duty or reduce it to such extent as he thinks fit.

(*3*) If, after such inquiry as he thinks necessary, the Governor General in Council is of opinion that the duty specified in the First Schedule in respect of wheat flour is excessive, he may, by notification in the Gazette of India, reduce such duty to such extent as he thinks fit, but not so as to make it lower than an *ad valorem* duty of twenty per cent.

Power to cancel notifications.

12. All notifications published under this Act may be cancelled by the authority publishing the same.

Repeals.

13. (*1*) The Acts mentioned in the Third Schedule are repealed to the extent specified therein.

(*2*) All notifications published and all rules and orders made, or deemed to have been made, under any of those Acts and in force immediately before the commencement of this Act shall, so far as they are consistent herewith, be deemed to have been, respectively, published and made under this Act, and all references made, or deemed to be made, to the Indian Tariff Act, 1894, in Acts or Regulations passed before the commencement of this Act shall be deemed to be made to this Act. Penal Servitude.

Sentence of penal servitude.

70. Where a person is in pursuance of this Act convicted by a court-martial, and either is sentenced or has his sentence commuted to penal servitude, such conviction and sentence shall be of the same effect as if such person had been convicted by a civil court in British India of an offence punishable by penal servitude and sentenced by that court to penal servitude, and all enactments relating to a convict so sentenced shall, so far as circumstances admit, apply accordingly; and the said convict shall be removed to some prison in which a convict so sentenced by a civil court in British India can be confined either permanently or temporarily, and the order of the Governor General in Council or of the Officer Commanding the Indian Navy, or of the officer ordering the court-martial by whom such person was convicted, shall be a sufficient warrant for the transfer of the said person to such prison to undergo his sentence according to law, and until he reaches such prison for detaining him in naval custody, or in any civil prison or place of confinement.

* * * * * *

72. In case any such offender shall be conveyed to any prison, not being a naval prison appointed by virtue of this Act, an allowance such as the Governor General in Council shall from time to time direct shall be made to the governor, keeper, or superintendent of the gaol or prison for the subsistence of such offender while he is detained therein, and such allowance shall be paid by order of the Governor General in Council upon production by the said governor, keeper, or superintendent of a declaration, to be made by him before a Magistrate, of the number of days during which the offender has been so detained and subsisted in such gaol or prison.

Imprisonment of offender already under sentence for previous offence.

73. Whenever sentence shall be passed by a court-martial on an offender already under sentence either of detention, imprisonment, or penal servitude, passed upon him under this Act for a former offence, the court may award sentence of detention, imprisonment, or penal servitude for the offence for which he is under trial to commence at the expiration of the detention, imprisonment, or penal servitude to which he has been previously sentenced, although the aggregate of the terms of detention, imprisonment, or penal servitude may exceed the term for which any of those punishments could be otherwise awarded:

Provided that nothing in this section shall cause a person to undergo imprisonment or detention for any period exceeding in the aggregate two consecutive years, and so much of any term of imprisonment or detention imposed on a person by a sentence in pursuance of this section as would prolong the total term of his punishment beyond that period shall be deemed to be remitted.

Prisons.

Term and place of imprisonment.

74. (*1*) Every term of penal servitude, imprisonment, or detention in pursuance of this Act shall be reckoned as commencing on the day on which the sentence was awarded, and the place of imprisonment or detention, whether the imprisonment or detention was awarded as an original or as a commuted punishment, shall be such place as may be appointed by the court or the commanding officer awarding the punishment, or which may from time to time be appointed by the Governor General in Council, and may, in the case of imprisonment, be one of the naval prisons appointed under this Act, or naval detention quarters, or any common gaol, house of correction, or military prison or detention barrack, and may in the case of detention be any naval detention quarters or a military detention barrack within His Majesty's dominions.

(*2*) Where, by reason of a ship being at sea or off a place at which there is no proper prison, or naval detention quarters, a sentence of imprisonment, or detention, as the case may be, cannot be duly executed, then, subject as hereinafter mentioned, an offender under sentence of imprisonment or detention, as the case may be, may be sent with all reasonable speed to some place at which there is a proper prison or naval detention quarters, or, in the case of an offender under sentence of detention, to some place at which there are naval detention quarters, in which the sentence can be duly executed, and on arrival there the offender shall undergo his sentence, in like manner as if the date of such arrival were the day on which the sentence was awarded, and that notwithstanding that in the meanwhile he has returned to his duty or become entitled to his discharge; and the term of imprisonment or detention, as the case may be, shall be reckoned accordingly, subject however to the deduction of any time during which he has been kept in confinement in respect of the said sentence.

(*3*) Where in pursuance of this Act a person is sentenced to imprisonment or detention the order of the Governor General in Council or of the Officer Commanding the Indian Navy, or of the officer ordering the court-martial by which such person was sentenced, or, if he was sentenced by the commanding officer of a ship, the order of such commanding officer, shall be a sufficient warrant for the sending of such person to the place of imprisonment or detention, there to undergo his sentence according to law, and until he reaches such place of imprisonment or detention for detaining him in naval custody, or in the case of a person sentenced to imprisonment in any civil prison or place of confinement.

Power to suspend sentences.

74A. Where a person has been sentenced to penal servitude or imprisonment or detention the Governor General in Council or officer who by virtue of sub-section (*3*) of section seventy-four of this Act has power to issue an order of committal (hereinafter in this section referred to as "the committing authority") may, in lieu of issuing such an order, order that the sentence be suspended until an order of committal is issued, and in such case—

(*a*) Notwithstanding anything in this Act, the term of the sentence shall not be reckoned as commencing until an order of committal is issued;

(*b*) The case may at any time, and shall at intervals of not more than three months, be reconsidered by the Governor General in Council or committing authority, or an officer holding such command as the Governor General in Council may by regulation prescribe, and if on any such reconsideration it appears to the Governor General in Council or committing authority or

officer that the conduct of the offender since his conviction has been such as to justify a remission of the sentence the Governor General in Council or committing authority or officer shall remit the whole or any part of it;

(*c*) Subject to regulations made by the Governor General in Council the Governor General in Council or committing authority, or an officer holding such command as the Governor General in Council may by regulation prescribe, may at any time whilst the sentence is suspended issue an order of committal and thereupon the sentence shall cease to be suspended;

(*d*) Where a person subject to this Act, whilst a sentence on him is so suspended, is sentenced to penal servitude or imprisonment or detention for any other offence then, if he is at any time committed either under the suspended sentence or under any such subsequent sentence, and whether or not any such subsequent sentence has also been suspended, the committing authority may direct that the two sentences shall run either concurrently or consecutively, so, however, as not to cause a person to undergo imprisonment or detention for a period exceeding the aggregate of two consecutive years, and where the sentence for such other offence is a sentence of penal servitude, then, whether or not that sentence is suspended, any previous sentence of imprisonment or detention which has been suspended shall be avoided.

When a person has been sentenced to penal servitude or imprisonment or detention and an order of committal has been issued, the Governor General in Council or the committing authority, or an officer holding such command as the Governor General in Council may by regulation prescribe, may order the sentence to be suspended, and in such case the person whose sentence is suspended shall be discharged and the currency of the sentence shall be suspended until he is again committed under the same sentence, and the foregoing paragraphs (*b*), (*c*) and (*d*) of this section shall apply in like manner as in the case where a sentence has been suspended before an order of committal has been issued.

Where a sentence is suspended, under this section, whether before or after committal, the Governor General in Council or, subject to any regulation or direction which may be issued by the Governor General in Council, the committing authority or officer by whom the sentence is suspended may, notwithstanding anything in section fifty-three of this Act, direct that any penalty which is involved by the punishment of penal servitude or imprisonment or detention either shall be or shall not be remitted or suspended.

Place of imprisonment may be changed, etc.

75. Whenever it is deemed expedient it shall be lawful for the Governor General in Council, the Officer Commanding the Indian Navy, or senior naval officer present by any order in writing from time to time to change the place of confinement of any offender imprisoned or sentenced to be imprisoned or detained in pursuance of this Act or of any offender undergoing or sentenced to undergo detention, and the gaoler or other person having the custody of such offender shall immediately on the receipt of such order remove such offender to the gaol, prison, or house of correction, or, in the case of an offender undergoing or sentenced to undergo detention, to the naval detention quarters mentioned in the said order, or shall deliver him over to naval custody for the purpose of the offender being removed to such prison or naval detention quarters; and every gaoler or keeper of such last-mentioned prison, gaol, or house of correction or naval detention quarters

shall, upon being furnished with a copy of such order of removal, attested by a Secretary to the Government of India for the time being, receive into his custody and shall confine pursuant to such sentence or order every such offender.

(*2*) Where—

(*a*) it appears to the satisfaction of the Governor General in Council or any person deputed by him for the purpose that a person subject to this Act has deserted or left in destitute circumstances, without reasonable cause, his wife or any of his legitimate children under fourteen years of age; or

(*b*) any decree or order is made under any law for payment by a man who is or subsequently becomes subject to this Act either of the cost of the maintenance of his wife or child, or of the cost of any relief given to his wife or child by way of loan, and a copy of such decree or order is sent to the Governor General in Council or any person deputed by him for the purpose;

the Governor General in Council or the person so deputed may direct to be deducted from the pay of the person so subject to this Act, and to be appropriated towards the maintenance of his wife or children, or in liquidation of the sum adjudged to be paid by such decree or order, as the case may be, in such manner as the Governor General in Council or the person so deputed may think fit, a portion of such pay, at his discretion, but the amount deducted shall not exceed the amount fixed by the decree or order (if any), and shall not be a higher rate than the rates fixed by rules made in this behalf by the Governor General in Council:

Provided that no such deductions from pay in liquidation of a sum adjudged to be paid by a decree or order as aforesaid shall be ordered unless the Governor General in Council, or the person deputed by him is satisfied that the person against whom the decree or order was made has had a reasonable opportunity of appearing himself, or has appeared by a duly authorised legal representative, to defend the case before the court by which the decree or order was made, and a certificate, purporting to be a certificate of the commanding officer

of the ship on which he was or is serving, or on the books of which he was or is borne, that the person has been prevented by the requirements of the service from attending at a hearing of any such case shall be evidence of the fact unless the contrary is proved.

Where any arrears have accumulated in respect of sums adjudged to be paid by any such decree or order as aforesaid whilst the person against whom the decree or order was made was serving under this Act, whether or not deductions in respect thereof have been made from his pay under this section, then after he has ceased so to serve an order of committal shall not be made in respect of those arrears unless the court is satisfied that he is able, or has, since he has ceased so to serve, been able to pay the arrears or any part thereof and has failed to do so.

(*3*) Where a proceeding under any law is instituted against a person subject to this Act for the purpose of enforcing against him any such liability as above in this section mentioned, the process may be served on the commanding officer of the ship on which he is serving or on the books of which such person is borne, or where, by reason of the ship being at sea or otherwise, it is impracticable to serve the process on such commanding officer, the process may, after not less than three weeks' notice to the Governor General in Council, be served by being sent to a Secretary to the Government of India for transmission to such commanding officer, but such service shall not be valid unless there is left therewith in the hands of such commanding officer or Governor General in Council such sum of money, if any (to be adjudged as costs incurred in obtaining the decree or order if made against the person on whom the process is issued), as may be fixed by the Governor General in Council as being necessary to enable him to attend the hearing of the case and to return to his ship or quarters, and such sum may be expended by the commanding officer for that purpose, and no process whatever under any law in any proceeding in this section mentioned shall be valid against a person subject to this Act if served after such person is under orders for service on a foreign station.

The production of a certificate of the receipt of the process purporting to be signed by such commanding officer as aforesaid shall be evidence that the process has been duly served unless the contrary is proved.

Where, by a decree or order sent to the Governor General in Council or officer in accordance with sub-section (*2*) of this section, the person against whom the decree or order is made is adjudged to pay as costs incurred in obtaining the decree or order any sum so left with the process as aforesaid, the Governor General in Council may cause a sum equal to the sum so left to be paid in liquidation of the sum so adjudged to be paid as costs, and the amount so paid by the Governor General in Council shall be a public debt from the person against whom the decree or order was made, and, without prejudice to any other method of recovery, may be recovered by reduction from his pay, in addition to those mentioned in sub-section (*2*) of this section.

(*4*) This section shall not apply to persons subject to this Act where such persons are officers.

(*5*) In this section the expression "pay" includes all sums payable to a man in respect of his services other than allowances in lieu of lodgings, rations, provisions, and clothing.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are (1) that widowed daughters incapable of re-marriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. In all cases the brakes operated by one of the means of operation shall be capable of being applied by direct mechanical action without the intervention of any hydraulic, electric or pneumatic device.

Where one braking system only is fitted—

Draft Municipal Account Rules.

CHAPTER I.

3. Whenever under these rules any specific duty is assigned directly or by implication to any Inspector or clerk, that duty may be assigned by the Commissioners at a meeting to any officer otherwise employed under them, and that officer shall thereupon be deemed to be the Inspector or clerk mentioned under the rule.

4. The powers conferred by these rules on an Inspector may be exercised by a Commissioner, by the Executive Officer, by the Secretary or by the tax-collector so long as an Inspector is not appointed.

5. Whenever, in rules 79 to 96 the tax-collector or other officer is directed to submit periodical statements of any facts, he is not thereby

relieved from the duty of reporting those facts as soon as they come to his knowledge.

6. Whenever under these rules a duty is imposed but the designation of the officer or servant who is to perform that duty is not specified in the rule, the duty shall be performed by that officer or servant, who is in charge under the orders of the Chairman, or Vice-Chairman or the Executive Officer or of the Commissioners at a meeting, as the case may be, of the work to which such duty relates.

7. In all matters not expressly provided for by these rules, the rules, forms, registers and returns prescribed in the Civil Account Code, or in force for the time being under the orders of the Government or other competent authority, shall, in so far as they are consistent with these rules and with the Act, apply to the accounts of the municipality, and shall be observed, used, kept, and submitted by the officer appointed under section 54 of the Act.

Receipt and Crediting of money.

8. All money transactions to which any Commissioner, or any officer or servant of the Commissioners in his official capacity is a party, shall without any reservation be immediately brought to account and all the money received shall be lodged in full in the Treasury to be credited to the appropriate account.

9. Moneys pertaining to the Municipal Fund, with the exception of authorized advances, shall not be kept apart from the general balance at the credit of the Commissioners but shall at once be credited to the appropriate head of account.

Note.—Persons connected with the Treasury are forbidden to assist in any way in collecting municipal revenue or in posting the municipal books.

Payment of Money.

10. Subject to the provisions of rule 11 and of rule 219 money shall not be drawn from the Municipal Fund except by a cheque signed by the Chairman or Vice-Chairman or by the Executive Officer or by the Secretary authorized by the Commissioners at a meeting.

11. (1) Sums for amount not exceeding Rs. 20 shall be paid in cash from the permanent advance.

(2) No expenditure shall be incurred for which provision has not been made in the budget estimate of the year or in a revised budget estimate made in accordance with the provisions of section 112 or a supplementary budget estimate made under section 114 and which has not been sanctioned by the Commissioners at a meeting or the Chairman or by the Vice-Chairman acting in exercise of the powers delegated to him under section 52 or by the Executive Officer acting in exercise of the powers conferred on him.

12. Whenever it is proposed to incur expenditure not provided for in the original budget or the revised budget estimates for the year, necessary funds to meet this expenditure shall simultaneously be provided under the proper head by necessary reappropriation sanctioned

by the Commissioners at a meeting. If the total expenditure under any head is found at any time to exceed the budget allotment the fact shall be reported to the Commissioner of the Division through the District Magistrate with reasons for the excess and action will be taken as decided by him.

Loans, Endowments and Provident Funds.

13. Funds held by the Commissioners as Provident Fund deposits and endowments, as well as those raised by loans or contributions for special purposes shall on no account be used by any municipal officer or servant for the general purposes of the municipality.

Note.—*See* rule 204.

Cash and Account Branches.

14. The cash and account branches of the municipal office shall be kept distinct from each other and under distinct officers, who, for the purpose of these rules, will be termed respectively tax-collector or cashier and accountant.

In no case shall the same person compile the municipal accounts and superintend the collections of the rates and other municipal income.

In small municipalities the tax-collector or cashier shall be in charge of the collection and cash branches, but in larger municipalities where it is found necessary the two branches may be placed under different officers to be styled tax-collector and cashier respectively.

15. The municipal cash-book and all other accounts and registers as far as possible shall always be kept in English, and vernacular headings may be used in the collection books, receipts, etc., if so required.

All books of account and registers shall be substantially bound and paged before being brought into use, and no accounts shall be prepared on loose sheets or in loosely bound volumes.

16. All corrections and alterations in accounts shall be made by neatly scoring through in red ink and writing the correct figures or words above, and shall be attested by the initials of the Chairman or Vice-Chairman.

Similarly all alterations and corrections in a voucher shall be duly authenticated by the payee.

Erasures shall on no account be permitted in registers, statements, vouchers or accounts of any description.

17. A sufficient supply of all forms, registers, guard files and stationery required shall always be kept and a fresh supply ordered at least three months before the stock of any forms, etc., is exhausted, and care shall be taken that the issue of tax bills is not delayed through want of forms. All such forms, registers and stationery shall be entered in a Stock and Store Register (Form 58) by the accountant, the yearly estimated consumption being noted in the remarks column.

The stock of bill receipt and license forms shall be kept in the custody of the Vice-Chairman or the Executive Officer or Secretary.

Classification of Transactions.

18. No change shall be made in the prescribed list of major and minor account headings without the consent of Government, and the same headings shall, except as provided in the rules, be used in all accounts prepared or issued by the Commissioners.

Facsimile Stamp and Common Seal.

19. The facsimile stamp shall always be kept in the personal custody of the officer whose signature it represents and shall never be used except in his presence and actually in his sight. The common seal of the Commissioners shall also be kept in the personal custody of the Chairman, Vice-Chairman, Executive Officer or Secretary and shall be used only in their presence.

Audit.

20. The accounts of the Municipal Fund will be examined and audited by the Examiner of Local Accounts in Bengal as far as possible not less often than once a year.

In auditing the accounts the Examiner or Local Auditor will see that they have been kept and are presented in proper form, that the particular items of receipts and expenditure are stated in sufficient detail and that the payments are supported by adequate vouchers and authority. He will examine whether all sums received or which ought to have been received are brought into account, and also whether the receipt and expenditure are in all cases such as are authorized by law. He will also ascertain the total unpaid liabilities of the Commissioners, and also whether these can be met out of the Municipal Fund when falling due.

The reports of such examination will be forwarded by the Accountant-General, Bengal, to the Chairman, and copies to the Commissioner of the Division and the Magistrate of the district.

21. The Chairman, Vice-Chairman, Executive Officer, or Secretary shall, at the time of audit, cause to be produced all accounts, registers, documents and subsidiary papers which may be called for by the Examiner or Local Auditor to assist him in his investigation. He shall also produce the cash balance and the balance of imprest before the Examiner or the Local Auditor for verification.

22. The Chairman shall, as soon as possible after the receipt of the objection statement and the audit report from the Accountant-General, Bengal, convene a special meeting of the Commissioners to consider the objections and suggestions made by the Examiner, and to decide upon the action to be taken in regard thereto. The Chairman shall recover without delay all illegal or unauthorized payments pointed out by the Examiner or Local Auditor. The Chairman shall remedy any defects or irregularities that may be pointed out by the Examiner or Local Auditor and within three months of the date of the receipt of the report he shall submit a statement giving particulars of action taken thereon to the Accountant-General, Bengal, through the District

Magistrate and Commissioner of the Division. But the objection statement shall be sent by the Chairman direct to the Examiner of Local Accounts, Bengal.

Loss of money by embezzlement, theft or otherwise.

23. Whenever any loss of money by embezzlement, theft or otherwise is discovered, the fact shall be promptly reported by the Chairman to the Examiner of Local Accounts, Bengal. When the matter has been fully enquired into he shall submit to that officer a further and complete report showing the total sum of money lost, the manner in which it was lost, and the steps taken to recover the amount and punish the offenders.

No money or irrecoverable value of stores lost by theft, fraud, the negligence of individuals or other cause, shall be written off from the accounts, except with the sanction of the Commissioner of the Division, when the amount of the loss exceeds Rs. 500, or when the loss is due to any defect in the system of accounts, collection, etc., the sanction of Government is necessary.

CHAPTER II.

Preparation of Budget Estimate.

24. The budget estimate shall be prepared in English in Form 1 by the accountant of the municipality or by the Finance Standing Committee, if one has been appointed by the Commissioners under section 86. The receipts shall be estimated in detail, but the totals only of the estimated expenditure shall be entered in the body of the estimate against the several headings.

The expenditure chargeable to loans shall be distinguished from that chargeable to revenue, and the balance shall be subdivided thus:—

	Rs. A. P.
Opening balance of loan funds	....
Appropriation of loan funds	....
Closing balance of loan funds	....
Opening balance of revenue funds	....
Appropriation from revenue	....
Closing balance from revenue funds ..	....

Particulars regarding the appropriation of loan funds shall be taken from the Appropriation Register (Form 72).

25. The budget estimate shall be accompanied by a Schedule in Form 1 (*b*) for each major head, in which shall be entered full details of the estimated expenditure under that head in the budget estimate.

26. In preparing the budget estimate, what is expected to be paid during the year shall be provided for and not the liability likely to be incurred or to fall due within the year. All existing liabilities which cannot be liquidated before the commencement of the year for which the budget estimate is being prepared shall also be ascertained and provided for.

27. (1) The educational budget estimate of the municipality shall be drawn up in Form 1 (*a*) by the Education Committee constituted under section 456 and shall be laid before the Finance Standing Committee (where one has been appointed under section 86) not later than the 1st of December each year. After approval by the Finance Standing Committee, the budget shall be laid before the Commissioners at a meeting to be held not later than the 15th of December each year.

(2) The waterworks budget estimate of the municipality shall be drawn up in Form 1 (*c*) (P. H. D. Form 8) and shall be approved by the Finance Standing Committee not later than the 1st of December each year. This budget estimate shall similarly be laid before the Commissioners at a meeting to be held not later than the 15th of December each year.

(3) After the entire budget estimate of the municipality has been sanctioned by the Commissioners it shall be submitted to the Commissioner of the Division through the District Magistrate not later than the 1st of January each year.

(4) On receipt of the budget estimate, the Commissioner of the Division shall forward a copy of the educational budget estimate of the municipality to the Divisional Inspector of Schools, who after referring, if he considers it necessary to do so, any question for advice to the Director of Public Instruction, shall forward his remarks on the budget estimate to the Commissioner of the Division on or before the 31st of January and shall at the same time send a copy of his remarks to the Chairman. The Commissioners may vary or alter the educational budget estimate in accordance with the advice of the Divisional Inspector of Schools under the provisions of sub-section (*3*) of section 112.

(5) Copies of the waterworks budget of the municipality as sanctioned by the Commissioners, shall be submitted in triplicate to the Chief Engineer, Public Health Department, not later than the 1st of January each year for any remarks which he may consider necessary. The Chief Engineer shall communicate his remarks to the Chairman not later than the 31st of January, and shall also send a copy of the budget with a copy of his remarks to the Commissioner of the Division for his information.

(6) In the case of an indebted municipality in respect of which an order under section 116 has been made, the Commissioner of the Division shall sanction the budget before the 15th of February.

The Commissioners shall have power to vary or alter the budget under sub-section (*3*) of section 112 subject to the following condition, viz., that transfer from one major head to another shall not be made without the previous sanction of the Commissioner of the Division.

(7) Proposals for sanction of reappropriations whether submitted to the meeting of Commissioners or to the Commissioner of the Division shall be in Form 2.

28. The minimum closing balance of each municipality shall not ordinarily be less than one-sixth of the aggregate expenditure on account of the establishment and fixed monthly charges for the whole year, *i.e.*, charges on account of establishment, scholarships, contributions, rents and other recurring charges other than loan, or the total average charges for two months.

Subsidiary accounts of special rates.

29. A separate account shall be prepared in Form 5 showing the receipt, charges and balance on account of each of the following rates, namely, the water-rate, lighting rate and conservancy rate.

In the form of budget estimate and the quarterly and annual accounts to be prepared for publication all sums received by the Commissioners shall be treated as forming one Municipal Fund. In appropriating the funds at their disposal the Commissioners shall conform to the special provisions as contained in section 111.

30. The credit balance of each of these accounts shall, except as provided in section 111, be carried forward and not appropriated for general purposes, but if there is a continuous debit balance, it may be cleared by adding the deficit to the receipts as a contribution from the general fund. The direct receipts and charges for the quarter will be transcribed from the quarterly and annual accounts. The proportionate share of the annual cost of collection and supervision and of the keeping of accounts worked out on the ratio fixed by the Commissioners at a meeting under section 111 of the Act, shall be entered in column 7 of Form 2, without disturbing the classification in the quarterly and annual accounts. For example if a proportionate share of the cost of collection is to be charged against the water-rate, it will be entered in column 7 of Form 5, but the full cost of collection shall continue to be shown in Form 83 under the head "32—Collection of taxes," and not proportionately under that head and "61—Water-supply." The same rule applies to the proportionate distribution of receipts to the credit of the subsidiary funds.

Note 1.—For the determination of the proportionate share of the collection and supervision charges the following heads of expenditure shall be taken into account:—

(1) office establishment, including provident fund contribution and contingencies;

(2) establishment for collection of taxes including provident fund contribution;

(3) other charges on account of collection of taxes;

(4) printing charges;

(5) law charges;

(6) Public Works Department establishment or Sanitary Inspector's pay according as the Public Works Department staff or the Sanitary Inspector supervises the work of water-supply/lighting;

(7) charges for the Health Officers and Sanitary Inspectors for conservancy fund.

Note 2.—The term "proportionate" occurring in section 111 is interpreted to mean that the shares of the cost of collection and supervision should be based on the ratio which the income of the fund bears to the total revenue from all sources.

31. An abstract account in Form 5 showing the estimated opening and closing balances and receipts and expenditure pertaining to each rate as shown in the estimates for the ensuing year, shall be annexed to the budget. Similar figures showing the estimated balances and expenditure out of any loan granted by the Government shall also be shown in this abstract. When a proportion only of certain receipts and charges is taken into the account of any particular rate or fund, the necessary information shall be furnished in the "Remarks" column of the form.

CHAPTER III.

COLLECTION OF TAXES.

General.

32. The duties assigned to the Vice-Chairman in these rules may under the written order of the Chairman, be performed by the Executive Officer or the Secretary.

33. The municipality shall be divided by the Chairman, with the approval of the Commissioners at a meeting, into collecting circles by a calculation based on the ground to be traversed and the number of bills to be delivered. Each circle shall be numbered and to each circle shall be appointed a sarkar. The collecting circles shall be as compact as possible, and so arranged as to distribute the work of tax collecting evenly among the sarkars. No collecting circle shall contain more houses than can be visited by one sarkar during the working days of a month.

Whenever rates, rents or other dues not received in the Municipal Office as contemplated in section 152, the Commissioners shall arrange for the verification of at least ten per cent. of the receipts granted to the payers with the duplicate copies filed in the office. This verification shall, in no case, be entrusted to the Collection or Assessment Department.

34. The circles having been determined and the assessment list under section 147 having been published, the Assessment Register and the Demand and Collection Registers shall be opened, separate books being used for each circle.

35. All changes in the demands shall be entered in an Assessment Register from which the Demand and Collection Register shall be posted. The bills shall be prepared from the Demand and Collection Register in which the satisfaction of the bills by collection or remission shall be noted. The details of the totals of the bills on completion shall be compared with the entries in the Assessment Register for the quarter. For each officer entrusted with the collection of "rates" an account or ledger is to be kept in which he will be debited with the demand for the quarter as shown in the Demand and Collection Register and credited with the collections and remissions. These accounts are to be closed and balanced monthly and the totals of the several accounts are to be brought together in the form of a progress statement to show the state of the entire collections.

36. If there is a separate Assessment Department, Assessor or any other officer in charge of the Assessment Department shall keep the Assessment Register and the Mutation Register and prepare the progress statement while the Collection Department shall deal with collections, remissions and warrants and post the settlement of demands in the Demand and Collection Register. The sarkars who are employed on the actual work of collection shall not, however, be allowed to have access to the Assessment Register and the Demand and Collection Register. The Accountant or Head Clerk shall in every case check the remissions and the progress statement. If possible, the Vice-Chairman shall so apportion the duties between the Head Clerk or Accountant and the tax-collector as to provide for a cross-check over the Collection Department. Where there is no separate Assessment Department the Assessment and Mutation Registers shall be kept by the Head Clerk or Accountant.

37. Collecting sarkars shall be changed at the end of each financial year. The outgoing sarkar shall prepare a list of outstandings which, after check by the tax-collector, will be made over to the relieving sarkar. Once the latter receives this list the responsibility for the collections will be entirely his.

38. The assessment list shall be prepared in Form 3, and kept in bound volumes. As soon as a revision of valuations is made in a municipality columns 1 to 8, and 10 to 12 of the assessment list shall be filled in. Notices of assessment shall at the same time be issued to all concerned under section 147 (*2*). The dates of (*i*) service of the notice, (*ii*) receiving objections against new assessments, (*iii*) the disposal of the objections by the Assessment Review Committee and (*iv*) the correction of the Assessment Register and the final valuation fixed by the Assessment Review Committee shall be duly noted in columns 13, 14, 15, 17 and 9, respectively.

Assessment Register.

39. The Assessment Register shall be in Form 4. A separate volume shall be assigned to each collecting circle. Columns 1 to 5 shall be filled up from the assessment list. Sufficient space shall be left between each name for entering revisions and spaces may also be left at the end of each street or mahalla or other convenient interval for the insertion of new holdings brought under assessment.

40. The columns showing the annual value and quarterly demands in the Assessment and Demand and Collection Registers shall be totalled at least a month before the beginning of the first quarter of the year from which the revised assessment will take effect. The totalling may, if it be found convenient, be made by subdivisions, but these subsidiary totals must be carried forward or summed on a separate page of the Assessment Register and the Demand and Collection Register, so as to arrive at the total of the circle. When the total has been struck, the Vice-Chairman, Secretary or a Commissioner appointed for the purpose shall carefully compare the entries in columns 1 to 5 with the assessment list and with the orders of the Assessment Review Committee under section 149 and shall sign the register in token of having made the comparison.

41. Any reduction allowed after the writing up of the Assessment Register and before the totalling up of the quarterly dues shall be entered in the assessment list and the entries relating to the annual value and the quarterly instalment shall be duly corrected in the Assessment Register but all subsequent alterations decided upon by the Assessment Review Committee shall be noted in the columns for subsequent revisions.

42. The Assessment Register is the principal record of the Assessment Department and the officer-in-charge of the department shall be responsible for seeing that it is correctly prepared, and that all alterations therein are attested by the proper authority.

43. The Vice-Chairman shall see that the Assessment Register and Demand and Collection Register are free from erasures; no alterations shall be made in them except under the initials of the Vice-Chairman or other officer empowered to sign for him.

44. (1) The total originally struck in the Assessment Register in accordance with rule 40 shows the demand for the first quarter of the assessment. For subsequent quarters the demand shall be arrived at and agreement effected thus:—

	Annual value.	Quarterly rates.			
		House.	Latrine.	Lighting.	Water.
	Rs.				
Demand for first quarter of—as per columns 4 and 5 of Assessment Register ..					
Add—New and enhanced assessment					
Total ..					
Deduct—Reduction ..					
Demand for the second quarter					
Total demand as per Demand and Collection Register ..					

and so on, from quarter to quarter, until the assessment is revised. These entries may be made in continuation of the original total struck in the Demand and Collection Register or this may be noted in an abstract on the opening page. The total of all the circles may also, if desired, be brought into one view in a separate abstract.

(2) If the percentage on the valuation at which the tax is levied is changed under section 135 during the currency of the assessment the Assessment Register shall be corrected in accordance with section 138.

Petitions.

45. Petitions for review of assessment under section 148 shall, if possible, be presented in forms of a uniform pattern and Form 6 may be used for the purpose.

46. Such petitions shall be registered in Form 7 by means of which the progress made in dealing with them shall be watched.

Note.—The Assessment Review Committee shall try to dispose of expeditiously all petitions against assessments. In case any such petition cannot be disposed of within six months of its receipt the fact and the reason for delay shall be explained in detail to the District Magistrate.

46A. All applications for reduction or remission of rates under section 141, all proposals for remission of irrecoverable taxes under section 163 and all lists of irrecoverable taxes submitted by collecting sarkars shall, after entry in Form 7, be made over for enquiry to the Vice-Chairman or to a Commissioner other than the Ward Commissioner or to any other officer duly authorised by the Commissioners at a meeting to conduct such enquiry. The nature and results of the enquiry and the orders passed thereon by the Assessment Review Committee appointed under section 149 or by the Commissioners at a meeting, as the case may be, shall be recorded in Form 7 under the initials of the Chairman, Vice-Chairman, Executive Officer or Secretary. Such enquiries shall not be entrusted to the Ward Commissioner or to any member of the Assessment or Collection staff of the Commissioners.

Changes in the Demand.

47. All permanent alterations in the demand, whether by increases by new assessments or the enhancement of the existing assessments or as decreases by the cancellation or reduction of existing assessments, shall be recorded in the Mutation Register in Form 8.

48. This register shall be written up from the orders passed by the revising authority and shall be totalled at the close of each quarter. The total of the increases shall then be added to the previous quarter's demand and from the sum shall be deducted the total of decreases so as to work out the demand of each quarter.

49. As soon as the revising order has been passed and registered it shall be made over to the assessor or other officer in charge of the Assessment Register, who shall correct the demand and shall give a certificate on the order to the following effect:

"Certified that the corrections in the demand directed by these orders have been entered in the Assessment Register."

The order shall then be placed in file with the other orders of the same quarter.

50. As an alternative system the details of the order may be entered in Form 8 either in the column "Remarks" or in an additional column to be opened between columns 5 and 6. The corrections in the Demand Register shall then be made with reference to the entries in the Mutation Register each of which shall be initialled by the officer making the correction; and the certificate in the form prescribed in rule 49 shall be given at the foot of the Mutation Register after it has been totalled.

51. The alteration in the demand to be entered in the Mutation Register (Form 8) will not be retrospective.

Bill Forms.

52. If the valuation finally settled upon by the Assessment Review Committee be greater than the old valuation, the difference between the quarterly rates now fixed and the old rates realised, if any, under section 151 shall be realised from the quarter from which the assessment was given effect to. On the other hand, if the quarterly rates finally fixed by the Assessment Review Committee be less than the rates realised, if any, the amounts realised in excess shall be noted in the Register of rates refundable (Form 18) and set off by adjustment with the consent of the payee against his dues, if any, by debit to A2—Refund and credit to the proper receipt head or refunded to him on his presenting a bill.

53. Bills for municipal rates shall be in Form 9. The totals of the bills shall be entered both in words as well as figures. The bills shall be in duplicate and they shall be filled up in the Collection Department or in the Assessment Department by the carbon process from the Demand and Collection Register. Before the bills are issued they shall be compared with the Assessment Register by the Secretary or Accountant who shall record a certificate in the fly-leaf of each book that the comparison has been made and that the details shown in the bills are correct.

Receipt Forms.

54. When the tax is paid the tax collector or sarkar shall grant a receipt in Form 10. The sarkar shall fill up the form in duplicate by the carbon process and shall retain the duplicate copy. Part payment of quarterly taxes shall not be accepted. When an objection to an assessment or valuation has been made under section 148 and has not been finally determined, rate shall be paid on the previous assessment or valuation. In case of new holdings rates shall be realised on the new assessments and refunded, if necessary, under sub-section (2) of section 151, after the disposal of the objection by the Assessment Review Committee.

55. The forms shall be numbered consecutively for the year and shall be bound up in books of 100 duplicate forms each. Both the original and the duplicate shall bear the same number which shall be printed. The Vice-Chairman or the Secretary shall sign on the back of each receipt book, a certificate stating the number of forms contained in it. Only one book shall be given to a sarkar at a time and until the book thus issued has been used up no new book shall be given out. Receipt forms should not generally be printed in a local firm. If in special cases they are printed in a local firm, particular care should be taken to see that extra forms may not be printed and used improperly by the collecting staff.

56. If it is considered undesirable to empower sarkars to sign receipts on behalf of the municipality the receipts shall be in triplicate, of which one would be a temporary receipt signed by the sarkar and printed with a caution that the tax-payer should complain to the Chairman or Vice-Chairman if the formal receipt signed by the proper authority did not reach the tax-payer in a reasonable time, say a week. The permanent receipt would be signed or stamped by the Chairman or Vice-Chairman after the sarkar's accounts have been checked and delivered to the tax-payer in the course of the sarkar's daily rounds. The third portion would be the counterfoil for record in the office.

Demand and Collection Register.

57. The Demand and Collection Register shall be prepared in Form 12 from the Assessment Register and shall also show any outstanding dues noted in the previous Demand and Collection Register. The total of all outstanding dues shall be agreed with the total of the old arrears and the arrears for the previous year as shown in the sarkar's ledger of the circle.

The column "Amount of bill" shall be totalled and checked with the demand for the same quarter through the abstract of demand and until these agree and their agreement has been certified to by the Vice-Chairman, Executive Officer or Secretary in both registers, the bill shall not be issued for collection.

The satisfaction of the dues current or in arrears by payment or remission shall be posted daily in the Demand and Collection Register by the tax-collector or his assistant and the Vice-Chairman shall see that the work does not fall into arrears. Collecting officers other than the tax-collector or his assistant shall not have any access to these registers. At the end of each quarter all the money columns showing the collections and remissions in the Demand and Collection Register shall be totalled, after posting all collections and remissions and the total collections, remissions and balances of each quarter shall be checked and agreed with the total collection, remission and balances in the sarkar's ledger of the circle and the agreement shall be certified by the Vice-Chairman himself on both the registers. If any differences are found they must be reconciled immediately either by tracing the error or recovering from the tax-collector or sarkar any deficiencies for which they are unable to account. If the scrutiny lead to the detection of any embezzlement the facts shall be immediately reported to the Examiner of Local Accounts in accordance with rule 20 of these rules.

Remission Register.

58. Every remission of taxes, rates, fees or tolls sanctioned under the Act shall be entered in a register in Form 20. The period for which remission is granted shall always be clearly stated. If many remissions are granted by one order, either as a legal reduction on account of vacancy, or any other cause, or to clear the account of irrecoverable demands, the amounts to be remitted shall be entered in remission orders in Form 19. The total of these lists shall be given both in words and figures when they are passed by the revising authority. Irrecoverable taxes shall be remitted periodically, say once in every quarter of a year and not towards the close of the year when proper enquiry as to the merits of each case is rendered impossible owing to insufficiency of time.

59. All remissions or reductions of rates granted by the Commissioners at a meeting on account of excessive hardship under section 141 shall be noted in the Register of cases of excessive hardship (Form 15) to see that the remissions or reductions are not continued beyond one year without the fresh sanction of the Commissioners at a meeting.

Remissions or reductions on account of excessive hardship under section 141 shall not be granted with retrospective effect. They shall have effect from the quarter following the date of the order.

60. All remission orders shall be serially filed in a guard book and an index to the file of remission order shall be kept in the Remission Register. Copies of the remission order shall be communicated to each sarkar.

Daily Register of Collections.

61. The sarkar shall maintain a register in Form 14 (with the counterfoil left out) in duplicate in which the details of collection of the day shall be entered by the carbon process and the total of each day's collection struck. As an alternative the chalans (Form 14) may be bound in books with blank counterfoils. Each sarkar shall maintain a separate chalan book in which the details of collection shall be entered every day by the collecting sarkar and the total of each day's collection struck. Collections made by cash and by cheques shall be separately entered and totalled.

Collection of taxes.

62. A bill shall be presented for payment as soon as possible within three months of the date on which the sum to which it relates became due. No bill will contain a sum which became due three months or more before the date of presentation. The tax-collector shall commence the service of the bills at the beginning of the quarter by making over to each of the sarkars one or more bill books of his circle for delivery to the rate-payers. The sarkar shall go round with the bill books and also with a bound book of receipt forms and shall serve the original bill, after adding the date, on the tax-payer and note on the duplicate also the date on which the bill was served. As soon as the tax is paid he shall fill in the printed receipt and make over the original copy to the tax-payer. He shall at the same time note the fact and date of payment against the demand in the duplicate copy of the bill. The sarkar shall return to the municipal office either every day or, if permitted by the Vice-Chairman, every alternate day and shall deliver to the tax-collector all the money he has collected, together with the Daily Collection Register, and the receipt book in his possession. The tax-collector or his assistant shall check the account by comparing the credits with the duplicate of receipts and after initialling the latter, he shall cursorily run through the books and see that there are no duplicates from which the original receipts are missing which have not been initialled by him or his assistant. He shall then total the register and see that it corresponds with the money given to him by the sarkar and if all is in order he shall furnish a receipt on the duplicate or the counterfoil of the chalan stating in both words and figures the amount actually received by him with his dated signature and retain the chalan which shall be filed in a guard file after the Demand and Collection Register has been posted. The duplicate chalan or the counterfoil shall be handed over to the sarkar. The tax-collector shall then post the amount received from each sarkar into his cash book.

63. Every item of collection or of remission shall be posted daily in the Demand and Collection Register from the carbon foil of the receipt or from the relative remission order and the Vice-Chairman shall be responsible for seeing that the postings of collection or

remission of taxes in that register do not fall into arrears. The collecting sarkar shall not be allowed to have access to the Demand and Collection Register.

Stock Account of Receipt Forms.

64. The Vice-Chairman or Secretary shall keep the stock of receipt books in his personal custody and under lock and key and they shall only be issued under his orders.

65. All the receipts and issues shall be entered in a register in the annexed Form 13. When a receipt book is made over to a collecting sarkar, the Vice-Chairman or Secretary shall take his signature in the register.

66. When a receipt book has been used up the sarkar shall return it to the Vice-Chairman or Secretary who before issuing a fresh book shall see (1) that no page has been extracted, and (2) that in the case of cancelled forms the original and duplicate copies are in the book and have been cancelled. For each book returned the officer receiving it shall grant a receipt to the sarkar. The surplus forms which will be few in number if proper care is taken in making the estimate and indents, shall be destroyed under the personal supervision of the Vice-Chairman or Secretary at the end of each year. If, however, any entire books of forms are unused, they may be used in the next year.

Sarkar's Ledger.

67. The sarkar's ledger shall be kept in Form 16 and shall be posted by the tax-collector or head clerk. One such register shall be kept for each circle of collection. The entries under the heading "Collections" shall be filled up from the daily total in the Daily Collection Register under the various quarterly columns. The remissions may either be taken from the file of remission orders or if a remission Register is kept from that register. The form of the ledger provides for entry of the total of each day's remissions according to the former method, but if the latter method is adopted, the form may be simplified by recording only the total of the Remission Register for the month concerned in one entry in the various quarterly columns, as it is unnecessary to show details of the remission orders in the sarkar's ledgers as well as in the Remission Register.

Progress Statement.

68. The sarkar's ledgers shall be closed and balanced at the end of each month and the totals of the collection and remission shall then be posted into the progress statement, in Form 17. If there is only one circle, however, this will not be necessary, as Form 16 may be made to serve the purpose.

69. The demand shown in this statement will be the aggregate demand up to date of the current year and the balance of demand of previous years outstanding at the end of the last year. The collections and remissions shall be taken from the sarkar's ledger and the previous months' progress statement. The collections of the month

shall be verified by the accountant with the Abstract Register of Receipts and the cashier's cash book, and the remissions with the Remission Register or file of remission orders. If any discrepancies are noticed, the accounts of the month shall be re-checked until the errors are detected and rectified. As soon as the correctness of the progress statement has been proved by the accountant he shall sign it and lay it before the Vice-Chairman and when it has been passed and signed by the Vice-Chairman, it shall be placed with the sarkar's ledgers before the next ordinary meeting of the Commissioners.

70. The progress statement represents the state of the collection accounts as a whole and sarkar's ledgers of each circle separately and they shall be carefully scrutinized with a view to the adoption of measures for the collection or remission of arrears.

Warrants.

71. If the tax, rate, fee or toll is not paid on the presentation of a bill a Notice of Demand in Form B prescribed by Notification No. 6131 M., dated the 11th November 1933, under clause (*c*) of section 215, with a copy of the bill shall be served on the person liable to pay the same. A receipt in Form 10 will be granted by the person serving the Notice of Demand if he be authorized to receive any money. When 15 days shall have elapsed after the delivery of a Notice of Demand and the sum due is not paid within this period or sufficient cause is not shown to the Commissioners for not paying the same, the Commissioners shall issue a warrant of distress under section 156 of the Act which will be taken to the dafaulter's house by an officer charged with its execution by them and if the demand as well as the fee prescribed by law for the warrant expenses be not then satisfied, the said officer shall make an attachment of the dafaulter's property in the manner laid down in section 157 preparing an inventory of all goods and chattels so attached and proclaiming a notice of sale by beat of drum. Every warrant issued for this purpose shall be recorded in a register in Form 21. The Chairman or Vice-Chairman shall initial the register when signing the warrants. One Notice of Demand may cover several bills which have been duly presented, provided a copy of each bill is attached to that notice. An item included in one Notice of Demand may not be included in any subsequent demand notice and no Notice of Demand may be presented twice.

72. All outstandings shall be regularly reviewed and systematic action taken. In cases where for special reasons it is considered that warrant should not be issued the Vice-Chairman's written orders shall be taken and the fact noted in the register against the item.

73. The officer charged with the execution of warrants shall put his initials in the warrant register in token of having received the warrants in question. When he credits realization or returns any warrants the tax-collector or the officer in charge of the Warrant Department shall credit him with the amount of the warrants returned or the collections credited. All warrants should be returned to the office after a prescribed period.

74. Amounts realized by the seizure and sale of property shall be entered in the Register of Distraints in Form 22.

Warrant Department.

75. The procedure prescribed in the preceding rule presupposes the service of warrants by the sarkar. If there is a separate Warrant Department the arrear demands transferred to that department shall be deducted from the balance of the sarkar's ledger and be treated as a separate circle or circles of collection. Each warrant sarkar or the officer charged with the execution of a warrant shall keep a collection register in Form 14 and the progress of his work shall be embodied in a ledger in Form 16, the monthly totals of which will be embodied in the progress statement in Form 17. The remissions and collections shall either continue to be shown in the original Demand or Collection Register or separate registers may be opened for the Warrant Department, the letter "W" being entered in the original Demand and Collection Register against the demand transferred. The latter course need be adopted only when there is a complete division between the Collection and Warrant Departments.

Taxes paid at office.

76. In the event of the taxes being paid at the municipal office the tax-collector shall deal with the transactions precisely as the collecting sarkar does in ordinary course. For this purpose, a separate receipt book in the annexed Form 10 shall be kept by the tax-collector, from which a receipt shall be granted for each payment. All collections thus made shall be entered immediately in a form of collection account in Form 14.

Collection of taxes at the Municipal Office.

77. The tax-collector assisted by a sufficient number of clerks shall remain in the municipal office at a counter each day during the office hours fixed by the commissioners under section 152 for receipt of taxes, and on payment of tax by a tax-payer he shall receive the amount and hand over to him a receipt for the corresponding amount.

78. The amount so received shall be entered in a Daily Collection Register, one such register being used for each kind of tax.

A separate register or set of registers shall, of course, be supplied to each receiving clerk.

CHAPTER IV.

LICENSES.

General.

79. The following general rules shall apply to all licenses prescribed by the Act or rules made thereunder.

80. The Commissioners at a meeting shall appoint a suitable person to be a Licensing Officer for the purpose of rules 79 to 96.

81. No person other than the Chairman, Vice-Chairman, Executive Officer, Secretary or a Licensing Officer appointed under rule 80 shall receive any application for a license from any person who is required to take out a license under the Act.

Only one book for each purpose for which a separate book is required shall be issued by the Vice-Chairman or Executive Officer or Secretary at a time, and until the book thus issued has been used up, no new book shall be issued.

The receipt and issue of all license forms shall be recorded in a Stock Register (Form 11) and on no account shall loose unnumbered license forms be kept in the office.

Application for, and grant of, licenses.

87. On application by any person who is required to take out a license under any section of the Act or by rules under the Act the Licensing Officer shall, on receipt of the fee, fill up a license with its counterfoils in Forms 23 or 24 or 24A as the case may be, and issue the license. The progressive totals of the license fees received shall be entered at the foot of each counterfoil, as the counterfoils are filled up and the licenses issued. The total shall be entered at once and not be put off till the end of the day. The total receipts on this account which should agree with the last total on the counterfoils for the day shall be brought to account in the cashier's cash-book and remitted to the Treasury in the usual way. The Licensing Officer shall also enter the details of the license in the appropriate section or volume of the register of licenses (Form 25).

88. In the case of a license applied for under sections 370, 405(*ii*) and 407, the Licensing Officer before receiving the fee shall make such enquiries or inspection as he may deem necessary, or as may be prescribed by the Commissioners at a meeting. He shall then report the case to the Chairman unless he is empowered to deal with it himself.

Check of licenses.

89. At the end of each month the Licensing Officer shall examine his register of licenses to see that every person who is required to take out licenses has been served with bills and in each case in which a license is required to be taken out but has not been applied for, action under sections 155 to 160 shall be taken or if necessary a report about the case submitted for order to the Chairman, Vice-Chairman, the Executive Officer, the Secretary or the Commissioners at a meeting.

When a license taken out for one year or half-year is not renewed in the subsequent year or half-year, brief reasons shall be recorded in the register under the initials of the Vice-Chairman.

At the end of the year the Licensing Officer shall cause the details of all unexpired licenses to be carried forward into the register for the following year.

Conditions of licenses.

90. Licenses shall be granted exclusively in the name of the licensee and are not transferable.

At the expiry of the period for which a license is granted, if the license is still required, a new license may be issued in accordance with rule 87.

91. The conditions, if any, under which a license is granted shall be clearly intimated to the licensee when the license is issued.

Taxes on carriages, horses and other animals.

92. To facilitate compliance with the provisions of section 171, which requires that description of carriages, horses and other animals for which licenses are to be taken shall be forwarded to the Commissioners, printed statements in Form 26 shall be distributed to owners of such carriages, horses and other animals. Such forms shall be sent by post or hand to all persons who paid the tax during the preceding half-year.

In other respects, the procedure outlined in the previous rules in this chapter for collection of taxes by the license system shall be followed.

Fees for registration of carts.

93. Tin tickets shall be issued to owners of carts which have been registered under section 183. These tin tickets shall be of a different colour for each period of issue. They shall be of a size sufficiently large to be easily distinguishable and they shall bear consecutive numbers.

These tickets shall not be obtained from any firm or person carrying on business within the limits of the municipality.

As soon as the registration fee has been paid by the owner of the cart, the necessary particulars shall be entered in a register in Form 27 and the tickets shall be affixed to the cart by a municipal servant.

94. A stock book of the tin tickets received from the makers and issued under sections 184-187 shall be kept in Form 28. The Licensing Officer shall at least once a quarter compare the balance of the tin tickets as brought out in the stock book with the balance of unused tickets actually in the office and shall initial the register in token of comparison.

A similar form shall be used for hackney-carriage, jin rickshaw and palanquin tickets (see rule 95).

If tickets are entrusted to peons or sarkars for registration of carts, they shall also be entered in Form 29.

The unused tickets, if any, shall be produced before the Local Auditor who shall after verification destroy them and record a certificate to that effect in the stock book.

Licenses for hackney-carriages, hackney-carriage drivers, palanquins and palanquin-bearers.

95. Rule 94 regarding the custody, issue and check of cart registration tickets, shall apply, *mutatis mutandis*, to the custody, issue and check of plates issued under the Calcutta Hackney-carriage Act, 1919, to owners of hackney-carriages, jin rickshaws and palanquins and to drivers of hackney-carriages and bearers of jin rickshaws and palanquins. CHAPTER V.

Miscellaneous revenue for which there is fixed demand.

(a) Revenue leased out.

97. When the collection of revenue is leased out for fixed amounts the recoveries shall be watched by means of the Demand and Collection Register of rents in Form 36 or any modification thereof as approved by the Accountant-General to suit the requirements of the municipality.

Note.—The following sources of revenue are usually leased out:—

(1) Market rents.
(2) Rent of buildings and lands.
(3) Ferry rents.
(4) Fishery rents.
(5) Slaughter-house fees.
(6) Produce of lands and gardens.
(7) Cattle pounds.

98. A separate page or sets of pages of the register shall be set apart for each of the above kinds of revenue for which there is a fixed monthly, quarterly, half-yearly or annual demand.

99. The register shall show all demands due on account of rents arranged in serial order—

(1) on expired leases of the previous year,
(2) on unexpired leases of the previous year, and
(3) on leases granted for the current year.

The entries under (1) and (2) shall be taken from the register of the previous year. In the former case the demand due will appear in columns 9 and 11 and in the latter in columns 9, 10 and 11. The Accountant shall fill up the current year's register in respect of these demands in the manner indicated above and lay it with the register for the previous year before the Vice-Chairman, the Executive Officer or the Secretary who after comparing the entries shall place his initials in column 13.

In respect of (3) when the agreement with the lessee has been signed and security deposit paid, the Accountant shall fill up columns 1 to 12 and post the amount in the deposit ledger. He shall then lay the agreements, the register, the deposit ledger and the challans (or the cashier's

Cash-book) before the Vice-Chairman, the Executive Officer or the Secretary who shall—

(*a*) compare the entries in columns 1 to 8 with the agreement;

(*b*) see from the Register of Lands (rule 261) that all the items have been included and from the agreements and the previous register that all arrear and current demands have been correctly posted and then total and initial column 11.

(*c*) see by reference to the challans (or cashier's Cash-book) that the deposits (column 12) have actually been paid and place his initials against the entries in the deposit ledger and column 13 of the register.

100. Any bills issued shall be prepared from the Register of Fixed Demands as soon as rents fall due. One copy of this Bill shall be served by the collecting sarkars on the parties and the other copy kept by them for watching realisation. A receipt in Form 40 shall be granted to the parties when money is actually realised. The bills shall be compared with the Demand and Collection Register of rents (Form 36) kept by the Accountant before they are issued to the collecting sarkars for realisation.

A separate Daily Collection challan book (Form 14) shall be kept for such collections and the Collection Register shall be posted by the Accountant from it.

Note.—A bill must precede the notice of demand and the warrant of distress prescribed in sections 155 (2) and 156.

101. Payments made in satisfaction of the demand shall be posted by the Accountant from the Daily Collection challan or the cashier's Cash-book in the column for the month in which the money is credited in the Accountant's Cash-book, *e.g.*, a payment credited in June on account of May will appear in the column for June and not May.

When all the receipts of the month have been entered they shall be totalled and checked with the credit for the month in the abstract register of receipts.

102. When the monthly posting of the receipts has been completed the register shall be laid before the Vice-Chairman, the Executive Officer or the Secretary who shall compare the total for the month with the abstract register of receipts and a percentage of the credits with the Daily Collection Register and shall initial below the monthly total.

He shall take the necessary action for the recovery of the outstandings.

103. The security deposit which usually amounts to one-fourth of the annual rental will ordinarily be taken in satisfaction of the demand for the last three months of the year in which the lease expires and shall be transferred by adjustment from "deposits" to "rent" and entered in the register in the column for March. Such credits in the register may be made in red ink to distinguish them from cash payments made during the same month.

104. If any part of the deposit is taken as a fine for non-fulfilment of contract, the balance shall be taken in part satisfaction of the demand during the last three months of the year: and if on the 31st March the deposit or balance of deposit is more than the demand the excess shall

be refunded to the lessee. But in no case shall any sum be removed from the deposit and transferred to another head except under the orders of the Chairman or Vice-Chairman or Executive Officer or Secretary who shall at the time initial the debits made in the Deposit Ledger.

(b) Miscellaneous Revenue managed departmentally.

105. When the collection of revenue is managed departmentally, that is collected through municipal subordinates instead of being leased out to renters, it shall be collected by means of bilingual tickets in Form 37.

Note.—The following sources of revenue are managed departmentally in some municipalities:—

(1) Market fees.

(2) Ferry rents.

(3) Slaughter-house fees.

106. The tickets shall be obtained by the Commissioners from some press outside the municipality and shall be of different colours for different values. Each kind of tickets shall be bound in books of 25, 50 or 100 as convenient and shall bear consecutive machine numbers. Before issue to the collecting officers, the tickets shall be stamped with the common seal of the Commissioners in the presence of the Vice-Chairman or the Executive Officer or the Secretary. The stock of tickets shall be kept in the custody of the Vice-Chairman or the Executive Officer or of the Secretary, and a stock account of their receipts, issues and balance shall be kept by the Accountant in Form 28 and the tax-collector shall give his receipt in the proper column for tickets made over to him periodically.

107. The number of tickets issued to the sarkar by the tax-collector shall be counted and entered by him in the sarkar's debit and credit account of tickets (Form 29) which shall be posted whenever tickets are issued or returned or collections deposited.

The Accountant shall check this account when verifying his Cash-book (*see* rule 226) and the Vice-Chairman or the Executive Officer or the Secretary shall check it fortnightly like other subsidiary registers.

The cancelled tickets, if any, after being entered in the debit and credit account shall be produced before the Vice-Chairman, or the Executive Officer, or the Secretary for destruction, who shall record a certificate to that effect in the stock register (Form 28).

108. The sarkar shall date each ticket with a rubber stamp as he issues it and shall make the collections under the supervision of the Secretary, or other responsible officer appointed for the purpose by the Commissioners at a meeting. He shall be given a locked box in which he shall place without delay or reservation all fees as soon as they are received. The key of the box shall remain in charge of the Vice-Chairman, or Secretary or the officer appointed in this behalf by the Commissioners at a meeting.

109. The Vice-Chairman, Executive Officer, Secretary, or other officer appointed in this behalf by the Commissioners at a meeting shall at irregular intervals inspect the tickets of the stall-holders.

The Vice-Chairman shall satisfy himself that only persons having a ticket of the current date are allowed to hold a stall, or shop, in the bazar, market or to kill an animal in the slaughter-house.

110. At the end of the day or at such other time as may be fixed by the Chairman or Vice-Chairman, the sarkar shall take his cash-box to the municipal office, when it shall be opened by the Vice-Chairman, Executive Officer, Secretary, or other responsible officer appointed by the Commissioners at a meeting in this behalf. He shall verify the cash with the sarkar's debit and credit account of tickets (Form 29). The amount shall then be made over to the cashier and credited in the cashier's Cash-book in the usual way.

Miscellaneous demands.

111. For demands not otherwise provided for in these rules the Commissioners shall maintain a Miscellaneous Demand Register in Form 38.

Columns 1 to 7 of the register shall be posted when the bills are signed, and the entries regarding payment shall be made in columns 8 to 12.

The money shall then be credited into the cashier's Cash-book (Form 73) in the usual way.

112. Bills shall be prepared in Form 39 and shall be entered in the appropriate columns of the register and their satisfaction noted in the proper column. A receipt in Form 40 will be granted in such cases.

113. A receipt in Form 40 shall be granted by the Vice-Chairman, Executive Officer, or Secretary, for any money received by the Commissioners under these rules or the Act for which no receipt form has been prescribed. The total amount received shall be written in words both on the receipt itself and on the counterfoil.

114. The bill and receipt forms shall be bound in counterfoil books. Each book shall contain 100 forms and no book shall be brought into use until all the forms and counterfoils have been consecutively machine numbered. The numbers shall, if possible, be printed.

A separate book in the same form shall be used for any head of revenue, the receipts on account of which are numerous and until the book thus issued has been used up, no new book shall be given out.

115. The receipt and issue of all forms shall be recorded in the stock book (Form 11) and on no account shall loose unnumbered forms be kept in the office.

Recoveries for services rendered to private individuals.

116. No work shall be undertaken by the Commissioners for a private individual other than that executed in default of compliance with notice under section 519 or in pursuance of a deposit under section 516. If a sum of money is received under section 516 it shall be credited to the service head and a special account shall be opened in a separate register in Form 68 in the name of the individual concerned. The amount received shall be entered on the debtor side and the charges incurred on account of the service rendered including the supervision charges, shall be drawn on proper bills and entered on the creditor side, as soon as the amount is paid, with a quotation of the number and date of the voucher. On the completion of the work if there is a balance at his credit, it shall be refunded to him and a note of the fact made in the register.

Subscriptions and donations.

117. Subscriptions and donations for special purposes shall be recorded in Form 41. These shall not be appropriated for any other purposes and to prevent this a separate account shall be kept in Form 72.

Note.—*See* rule 204.

Contributions.

118. The realisation of amounts due on account of contributions shall be watched by means of the Miscellaneous Demand Register (Form 38). As soon as the demand can be ascertained and the amount becomes due, a bill shall be prepared by the Commissioners in Form 39 and accounted for in the way laid down in rules 111 and 112.

CHAPTER VI.

Establishment.

Monthly pay bills.

119. The salary bill of the municipal establishment shall be drawn in Form 42 and the certificate at the foot of the form shall be signed by the Chairman or Vice-Chairman. When salary is drawn for a portion of a month only, the rate at which it is drawn and the number of days for which it is claimed shall be stated either against the name of the employé in the body of the bill or in a note at the foot of the page.

When an employé is absent from duty and acting arrangements are made in consequence of his absence, the absentee statement on the reverse of Form 42 shall be filled in and signed by the Chairman or Vice-Chairman.

Pay not distributed shall be refunded by short drawal in the next monthly pay bill.

120. No deduction not authorised by the Act, these rules or a competent court or authority, e.g., library fee, association fee or co-operative dues shall be shown in the pay bill.

121. If a Provident Fund has been opened, the headings of the establishment bill may conveniently be in Form 43, but the certificates prescribed in the preceding rule shall not be changed.

The total of the bill will be the joint total of columns 4 and 11. The amount of column 8 (net amount payable) will be disbursed in the municipal office. The total of the Provident Fund shown in column 12 will be remitted to the Savings Bank by a cheque drawn in favour of the Post Master, and the income-tax shown in column 7 will be paid by cheque to the Collector of the district. If the amount be less than Rs. 10, payments will be made in cash.

122. To the first bill in which a periodical increment is drawn by any officer a certificate in Form 44 shall be appended.

123. The pay of all temporary employés who are entertained under sanction shall be billed for separately in the same form, the sanction being quoted.

124. One bill whether for establishment or other charges shall ordinarily only contain details of charges to be taken against one of the budget heads. If in any case a bill be presented which contains charges against more than one head, the Accountant shall enface in red ink on the bill itself above the payment order the details of the apportionment of the charges. These details shall be also shown in the Cash-book (Form 77) in the column "Head of account in Abstract Register."

125. The last payment of an employé's salary, travelling allowance, Provident Fund deposits, gratuity or security deposits shall never be made until it has been ascertained that there are no demands outstanding against him. A certificate to this effect signed by the Chairman or Vice-Chairman shall be attached to each such bill.

Distribution of salaries.

126. Every municipal employé shall give a receipt with date in the appropriate column on the form for the sum paid to him and shall in the case of sums exceeding Rs. 20 affix a receipt stamp before signing. The cost of such receipt stamp must be borne by the person who received the money and not by the Commissioners. Employés unable to write shall make their mark and shall be paid in the presence of the Vice-Chairman or some responsible officer, who shall record a certificate to that effect.

127. The head of the office is personally responsible for every salary drawn on a bill signed by him until he has paid it to the persons entitled to receive it, and has had the acquittance roll signed and, if necessary, stamped by the payee. If the payee does not present himself before the end of the month, the amount drawn for him shall be refunded by short drawal in the next bill; his salary can be drawn anew under rule 129 below when he presents himself to receive it. Pay shall not in any circumstances be placed in deposit.

128. The head of the office shall not readjust the salaries of the establishment by giving one officer more, and another less, than the sanctioned pay of his post, nor shall he distribute the pay of an absentee otherwise than as provided by any general or special rules or orders of the Commissioners at a meeting.

Arrear bills.

129. Arrear pay shall be drawn not in the ordinary monthly bill, but in a separate bill, with a quotation of the bill from which the charge was omitted or withheld or on which it was refunded by deduction, or of any special order granting a new allowance. Such bills may be presented at any time and may include as many items as are necessary, but they shall be supported by a certificate from the head of the office that the amount was not paid before.

When the bills are paid the number and date of the voucher shall be noted on the original bill from which the charge was withheld or omitted or in which it was refunded, against the item concerned in order to prevent a second claim from being entertained.

Leave and acting allowances.

130. Leave and acting allowances may be granted to municipal employés within the limits prescribed in the Fundamental Rules or other similar rules for the time being in force as regards Government service. No leave or allowance in excess of those admissible under these rules shall be granted without the express sanction of the Local Government.

Record of service.

131. A Service Book in Form No. 45 printed in English and the vernacular shall be supplied at his own cost to every subordinate employé holding a substantive appointment on the permanent establishment of a municipality.

In the case of heads of offices, e.g., Health Officer, etc., this record shall be kept in the "History of Services" in form 45A.

It shall be kept in the custody of the Chairman or the Vice-Chairman whose signature as well as that of the employé on the first page shall be attested every five year.

The Service Book shall contain a contemporary record of the employé's official life including leave of every description, every period of suspension from employment and every other interruption of service with full details of its duration. And every entry relative thereto shall be written across the page and attested by the Chairman, Vice-Chairman, or the Executive Officer or the Secretary.

132. The Chairman or Vice-Chairman is primarily responsible that every necessary entry is made, especially in regard to leave or suspension. The Service Books shall be shown once a year to the employés to enable them to see that all entries relating to their services, leave, etc., have been duly made and attested. The Service Books shall then be kept by the proper authority. Service Books shall be introduced and kept up whether rules for the grant of pension and gratuity have been framed or not.

133. A character roll in Form 45 AA which will be in the nature of a confidential report shall be maintained for the Executive Officer, Secretary, Engineer and Health Officer and other officers and kept in the personal custody of the Chairman. Unfavourable remarks, if any, made against any officer shall be communicated to him confidentially.

Pensions and gratuities.

134. Before any pension or gratuity authorised by rules framed by the Commissioners and approved by Government under section 69, is sanctioned, a report shall be made to the Accountant-General specifying the grounds on which the pension or gratuity is to be awarded, accompanied by a copy of the approved rules referred to above, the applicant's Service Book and a full statement of his service as shown therein and in other available records. The Accountant-General will then report what pension or gratuity is admissible under the rules.

Security.

135. No person shall be appointed to be the Secretary, Accountant, tax-collector, cashier, tax and license fee collecting sarkars and other employés entrusted with the receipt, expenditure or custody of municipal money or property unless he furnishes security to an amount to be

fixed by the Commissioners at a meeting, in accordance with the rules framed by them under clause (*ii*) of section 75 in each instance with due regard to the responsibility of the officer.

Such security must be either a deposit of cash or Government promissory notes, or Post Office Saving Banks deposits. In exceptional cases the Commissioners at a meeting may accept payment of the required security by deductions from salary. Such deductions shall be at not less than 10 per cent. of the salary or such sum as would make up the security in four years. In such cases personal securities shall be obtained until the full amounts of the cash securities required have been recovered, the solvency of the sureties being ascertained from time to time:

Provided that the Municipal Commissioners may, if they so desire, accept fidelity bonds from such employees, in lieu of security in monthly instalments, in accordance with the principle laid down in the notes appended to rule 40 of the Bengal Financial Rules.

136. In the case of every employé affected by the preceding rule, a security bond in Form 46 shall be executed. All such bonds shall be kept under lock and key in the custody of the Chairman, Vice-Chairman or Secretary.

A security bond executed in a particular capacity is not valid when the duties and responsibilities are added to or changed.

Travelling allowance.

137. Travelling allowance may be granted to municipal employés for journeys undertaken in the interests of the municipality. The travelling allowance paid to such officers shall not, without the express sanction of the Local Government, exceed what would be admissible to similar officers in Government service under Part III, Chapter V, of the Fundamental Rules.

138. Travelling allowance shall be drawn on a contingent bill (Form 48) in which the following details shall be given:—

(*a*) Name of officer with designation;

(*b*) Maximum pay of appointment;

(*c*) Dates of journeys and halts, and hours in case of journeys by road;

(*d*) Route: from to

(*e*) Purpose of journey;

(*f*) By rail or otherwise, etc.;

(*g*) If by road, the number of miles.

The bills shall be countersigned by the Chairman before it is passed for payment.

Note.— The Chairman may not delegate the power of countersignature to any officer subordinate to him, except the Vice-Chairman or Executive Officer, and to the latter only if duly authorized under section 51 or 52 as the case may be.

CHAPTER VII.

Contingent expenditure.

Contingent bills.

139. All recoupments of contingent charges shall be drawn on a bill in Form 48.

Note.—Contingent expenditure includes all charges other than those for establishment or travelling allowances.

Imprest accounts.

140. A sum of money specified from time to time by the Commissioners at a meeting but not exceeding Rs. 100 without the sanction of the Commissioner of the Division may be placed as a permanent advance at the disposal of an officer whose duties cause him to incur petty expenses which require to be paid at once before money can be obtained on a contingent bill (Form 48). Similar advances may also be made to schools, dispensaries and other municipal institutions.

Payments exceeding Rs. 20 shall not ordinarily be made from the imprest.

141. The holder of the permanent advance shall make payments from his permanent advance from time to time as may be required, and for each payment he shall obtain and hold a bill receipted by the payee, or in the case of petty office expenses a written detailed statement of the sums spent.

These bills or statements shall be numbered consecutively, enfaced or stamped "paid in cash" and entered in the expenditure columns of the permanent advance account in Form 49, the classification of the charges being carefully entered in the columns provided for the purpose.

142. The permanent advance may be recouped whenever necessary, and it shall always be recouped on the last working day of the month and it shall be recouped in the following manner:—

(*i*) The officer holding the advance shall compare the sub-vouchers with the entries in the permanent advance account and he shall deface them by stamping them "cancelled" so that they cannot be used again. He shall total and initial the column "amount of sub-voucher" in the permanent advance account and also the amounts in the classification columns, the cross total of which should agree with the total of the column "amount of sub-voucher" and shall rule a red ink line across the page.

(*ii*) The bill for recoupment shall then be drawn out and sent to the municipal office for payment. After the bill is enfaced with the usual payment order in the form prescribed in rule 217, a cheque shall be drawn out in favour of the officer holding the advance.

The recoupment shall always be in full of expenditure from the last recoupment to date so that the balance in hand after recoupment will always be the full amount of the advance.

143. The serial number of the sub-vouchers shall always recommence with No. 1 after each recoupment.

144. Sanction of the Commissioners at a meeting shall be obtained for the purchase of books, periodicals, newspapers, official publications, for unusual contingent charges, such as typewriters, fountain pens, furniture, etc., and for all recurring contingent charges which bind the Commissioners beyond a single payment.

Stamps and Postage.

145. Stamps and postage charges shall ordinarily be met from the permanent advance. But, in order to enable a check to be kept upon the number of stamps expended by each department using stamps upon the business of the municipality, a Stamp Register shall be maintained in Form 50. The same register shall be used for receipt or other stamps, separate pages being allotted for each description, columns 5 and 6 being modified as required.

This register shall also serve as the despatch register.

146. The balance of stamps in hand shall be verified once a month by the head of the office who shall make a note of the verification in the remarks column under his signature.

Note.—See rule 263.

Stationery Accounts.

147. The stationery accounts shall be maintained in Form 51. The purchases shall be made annually or half-yearly on indents duly sanctioned by the Chairman and showing the stock in hand at the time, the actual consumption of the previous year and the quantity required. The issues shall be acknowledged in the register under the initials of the officer supplied. The balances shall be struck at the end of the half-year and verified with the actual stock by the head of the office, who shall record a certificate to this effect on the register.

CHAPTER VIII.

Public works.

148. To facilitate the preparation of estimates, a schedule of rates of each kind of work commonly executed shall be kept up. The Chairman, the Vice-Chairman, the Executive Officer, the Secretary, or the Municipal Engineer shall periodically ascertain the market rates and place them before the Commissioners at a meeting to consider whether the schedules of rates should be revised. The schedule shall be passed at least once a year by the Commissioners at a meeting in March of each year. Any change in the rates during the currency of the year shall likewise be sanctioned and the number and date of the resolution quoted against the item concerned, under the initials of the Chairman or the Vice-Chairman.

Estimates.

149. Except in cases of emergency or to prevent damage or loss, no work shall be put in hand until a properly detailed estimate has been prepared and sanctioned.

All estimates for new works and repairs, the amount of which is not more than Rs. 200, may be sanctioned by the Chairman or the Vice-Chairman if empowered to do so, and those which amount to more than Rs. 200 shall be sanctioned by the Commissioners at a meeting and signed by the presiding officer.

In large municipalities, this limit may be raised with the sanction of the Commissioner of the Division.

In the case of the following classes of estimates or projects the sanction of the Commissioners shall be subject to the approval of the authority indicated:—

(*a*) All projects for new works, the estimated cost of which exceeds Rs. 10,000, but does not exceed Rs. 25,000.	Approval of the Commissioner of the Division.
(*b*) All projects for new works, the estimated cost of which exceeds Rs. 25,000.	Approval of the Local Government in the Local Self-Government Department to be obtained through the Commissioner of the Division.

The sanction of the Commissioners to an estimate for an original work which forms part of a contemplated scheme although such estimate may in itself be within the limit up to which the Commissioners can sanction, shall be subject to the approval of the same authority as the estimate for the whole scheme would be, and no such estimate for a part of a scheme shall be sanctioned unless the nature and the approximate cost of the entire scheme is fully set forth in the report of the estimate.

A revised estimate shall be prepared when an estimate is likely to be exceeded by more than 10 per cent. of its total amount or when considerable alterations of the original estimate are desired; and it shall be submitted for the approval of the authority whose sanction would be necessary if it were an original estimate.

150. The estimates shall be filed in order of sanction and indexed.

Measurement Book.

151. The overseer or other officer deputed for the duty of periodically measuring the works shall keep up a Measurement Book in Form 52.

152. The pages of the book shall be machine-numbered, and no page shall on any account be torn out, nor shall any entry be erased or effaced so as to be illegible. If a mistake be made, it shall be

corrected by crossing out the incorrect words or figures, and the correction thus made shall be initialled.

The entries in the Measurement Book should, if possible, be made in ink, but when this is not possible and the entries have to be made in pencil, the pencil entries shall not be inked over but left untouched. The contents or area shall, however, be invariably inked in.

153. The Measurement Book shall be the basis of all accounts of quantities, whether of work done by daily labour or by piece or by contract or of materials received which have to be counted or measured. From the Measurement Book all quantities shall be clearly traceable into the document on which payments are made, and the reference to the vouchers on which the quantities are entered for payment as well as the date of entry shall be given by endorsement on the original entries. The Measurement Book shall accompany the bills to the municipal office and no contract certificate or bill shall be passed without crossing off the connected entries in the Measurement Book. The document on which payment is made shall invariably bear a reference to the number and page of the book in which the detailed measurements are recorded.

154. To enable the overseer or other officer in charge of works to submit his Measurement Book with the bills or accounts to the municipal office two or more books for his use shall be provided. The Measurement Books after they are completed shall be returned to the municipal office for record.

155. When note or Measurement Books are issued, the name of the subordinate to whom they are issued and the date of issue will be noted on the book and attested by the signature of the head of the office. All the Measurement Books shall be numbered serially. A list of all books issued shall be kept in the municipal office in view of their being promptly called in and filed when done with.

Works executed by contract.

Tenders.

156. In the case of all works executed by contract, tenders shall be invited in the most open and public manner possible whether by advertisement in the local newspapers or by notices in the vernacular posted in public places. Where lowest tenders are not accepted the reasons for the same shall be stated.

Agreements.

157. For every work given out on contract an agreement on stamped paper shall be taken in Form 90 and executed in accordance with section 103.

Security.

158. As a safeguard against possible loss to the Commissioners the Chairman shall as a rule take security for the due fulfilment of a contract and this shall be either in the shape of a lump sum or a deduction

of 10 per cent. made from the payments due from time to time on account of work done.

The securities so taken will also serve to cover possible over-payments which may be detected on check-measurement.

Note.—*See* rule 189.

Contract Certificates.

159. Payments for work done or materials supplied by contractors shall be made as a rule monthly on a Contract Certificate in Form 53, showing quantities and value of work executed up to date, the quantities entered being duly attested by the overseer. Such payments shall be treated as payments on account. On the completion or cessation of the work, the final adjustment of the contractor's claim shall be made on bills printed on yellow paper and the payment shall be made on the contractor adding on the bill a certificate in his own hand-writing or attested by his thumb impression that the payment is in full settlement of all demands.

160. When contractors or suppliers are paid up at once on completion of the work or supplies, Form 54 may be used for the bill. In this form the accounts of several works and if necessary of more than one payee may be included.

Payments to contractors.

161. Payments to contractors and suppliers shall be made by means of cheques drawn in their favour. Such cheques shall be delivered to them direct and not through the overseer. When, however, the payee is a firm carrying on business outside the district the procedure laid down in rule 234 shall be followed.

Works executed through departmental agency.

Muster Roll.

162. When work is done by daily labour through departmental agency the basis of the account shall be the Muster Roll and when payments are not made daily the Muster Roll shall be a nominal one, *i.e.*, names of the labourers shall be entered in it. This shall be kept in Form 55. The nominal Muster Roll being the initial record of the labour employed each day on a work, shall be written up daily by the subordinate deputed for the purpose each morning before the labourers begin work.

163. An extract from the Measurement Book shall ordinarily be endorsed on the Muster Roll and the quantity of work turned out shall be compared with the cost of the labour employed so as to afford satisfactory evidence that the outturn of work gives a sufficient return for the money spent. Any deficiency in this respect shall be noticed by the paying officer.

164. If, however, the work is of a petty nature, and in consequence not susceptible of measurement, a certificate in lieu of the above shall

be furnished by the officer in charge of the work to the effect that the work turned out is worth the amount paid for it.

165. The Muster Roll shall be closed immediately after the close of the week or other period for which it is kept and the labourers paid as soon after as possible.

The payment shall be made in the presence of the Chairman, Vice-Chairman, Executive Officer, Secretary or a Ward Commissioner, who shall initial with date against the group of labourers paid on that date. The amount paid on each date shall be noted in words as well as figures at the foot of the Muster Roll (Form 55). The disbursement certificate at the foot of the Muster Roll shall then be signed by the officer witnessing the disbursement.

166. Wages not claimed within three months of their falling due shall not be paid without the written orders of the Chairman or the Vice-Chairman or Executive Officer. Claims preferred six months after their becoming due shall however be supported by a certificate from the head of the office that the amount was not paid before.

Completion certificates.

167. Before final payment for a work is made, a completion certificate shall be submitted by the Vice-Chairman, or other officer appointed by the Commissioners at a meeting in this behalf, to the effect that he has examined the work, and that it has been properly carried out in accordance with the sanctioned plans and estimates. If it has not been so carried out, an explanation of the difference shall be given.

Check-measurements.

168. All important works executed under the supervision of the municipal authorities shall be check-measured by the Vice-Chairman, or other officer appointed by the Commissioners at a meeting in this behalf. The fact of check-measurement shall invariably be noted under his signature with date or dates of check-measurement both against the measurement entries in the Measurement Book and in the contract certificates on which final payment is made.

Register of Works.

169. A Register of Works shall contain a record of every original work or repair estimated to cost more than Rs. 200, showing the expenditure incurred in comparison with the estimate and the arrears due on accounts for which part payments have been made. When the work is estimated to cost under Rs. 2,500, the record of outlay need not be kept by sub-heads, and Form 56 will be used. But a record shall be kept by sub-heads and Form 57 used where the outlay is estimated to cost not less than Rs. 2,500, provided that sub-heads under Rs. 200 need not be separately detailed in the register.

For works the cost of which is estimated not to exceed Rs. 200 expenditure against the estimate shall be watched by noting on the estimate itself the number of each payment voucher and the amount thereof.

Stock and Store Accounts.

170. For stock and store accounts, registers shall be kept in Form 58 with any additional details or columns which may be found requisite.

A separate set of pages shall be assigned to each description of stock. The figures entered in column "balance" shall be certified half-yearly by the Vice-Chairman or Executive Officer or the Secretary as representing articles found by actual counting or measurement, and if any excess or deficiency be found, the register shall be corrected accordingly.

Note.—*See* rule 263.

171. When there is a large balance of stores for use by the Engineering Department, registers of daily receipts and issues in Form 59 with inner columns for each kind of stores may be kept instead of Form 58. This register shall be balanced monthly in a separate abstract in Form 60, and a half-yearly return in Form 61 showing the receipts and issues month by month and the balance shall be prepared for stock-taking.

172. A separate account shall be kept of tools temporarily lent to contractors or in use by the municipal subordinates. When no longer required they will be received back by the store-keeper and transferred to the account of articles in store.

Indent Register of Stores.

173. All orders for supplies required for miscellaneous work to be executed shall be issued in Form 62. The Vice-Chairman shall see that the persons or firms concerned furnish bills for payment immediately after the close of the month or the completion of the work, as the case may be, supported by the order. But one bill shall ordinarily be submitted for all orders received by the same person during the month. A list of unpaid liabilities, if any, shall be prepared from this Register at the end of each year.

Note.—*See* rule 256.

Workshop.

174. The Engineer, or officer in charge of the workshop, shall keep up a stock book (Form 58) of stores, apparatus, fittings, etc., received for use in the shop. This register shall be balanced and the stock, etc., in hand verified by the officer in immediate charge of the shop at such intervals as the Commissioners at a meeting may prescribe, but not less than once a year.

Note.—*See* rule 263.

Work Register and Muster Roll.

175. To enable a check to be kept upon the work done in the workshop the officer in charge shall keep up a Work Register in Form 63. He shall also keep up a Muster Roll (Form 55) of the workmen.

176. The Workshop Stock Book and the Work Register shall be examined not less often than once a month by the Municipal Engineer

or other officer in charge of Public Works, who shall sign the register in token of his having made this examination. This officer shall also at frequent and unexpected intervals check the Muster Rolls.

Contribution works from the Road Development Fund.

177. When any work is to be carried out from contribution from the Road Development Fund, the project will have to be first approved by the Government of India. The grant sanctioned for each project may be paid by the Local Government in instalments from time to time and the work will be subject to inspection by the Executive Engineer or the Superintending Engineer of the Public Works Department of the Government of Bengal who will report whether it complies with the approved specifications. The final instalment of the grant will not be paid by the Local Government, nor shall the final payment for the works executed be made to the contractor by the Commissioners, until the Superintending Engineer furnishes a certificate that the work has been completed according to the approved specifications.

178. All contributions received from the Central Road Development Fund through the Local Government for reconstruction of roads and all expenditure incurred therefrom or from the Municipal Fund exclusively on those works shall be entered in the Appropriation Register (Form 72) for each sanctioned estimate separately. The unspent balance of contribution for one work shall not be appropriated towards the expenditure on any other work but shall be refunded to the Local Government by debit to the head "Extraordinary and Debt—Subvention from the Road Development Fund." A progressive statement in Form 72A showing the contributions received, the amounts expended out of them, and the balance left unspent in respect of each sanctioned estimate shall be submitted quarterly to the Local Government through the Commissioner of the Division and the Superintending Engineer and a copy of the same shall be forwarded to the Accountant-General, Bengal, and the Chief Engineer, Public Works Department. The copy forwarded to the Accountant-General, Bengal, shall be duly countersigned by the Superintending Engineer before it is sent. The total unspent balance of this statement shall agree with the outstanding balance of "Deposits—Subvention from the Road Development Fund."

Note.—See rule 179.

179. As soon as the money is received by the Commissioners it shall in the first instance be credited to a separate sub-head "Subvention from the Road Development Fund" under "(F) Extraordinary and Debt—Deposits." The actual expenditure on the works shall be debited to the head "C—Public Health and convenience—14—Public Works—Reconstruction of roads from the Road Development Fund." At the same time an amount equivalent to the amount of expenditure incurred in a month on these projects, shall be adjusted month by month by debit to the deposit head "Deposits—Subvention from the Road Development Fund" and credit to a separate detailed head "Contribution from Government for Road Development" under "D Grants and contribution for general and special purposes." The outstanding balance of the deposit head "Deposits—Subvention from the Road Development Fund" will represent the net liability of the Commissioners to the Local Government.

CHAPTER IX.

Dispensary Accounts.

General.

180. The accounts of Dispensaries included in Class III-A under rule 28 of the Dispensary Rules shall not be entered in those of the municipality, which is only concerned with them as an agency for the realization of endowments in the municipal area, and as paying a regular subscription from Municipal Funds. Dispensaries of Class III-B being a municipal asset and liability, their accounts shall be entered in those of the municipality. The following rules apply to either class.

Class III-A.

181. Class III-A Dispensaries, *i.e.*, those whose accounts are not incorporated:—

(1) The income from the endowments and investments will be realized by the Commissioners and remitted to the Treasury for credit to the account of the Dispensary Fund, an intimation being at the same time sent to the Managing Committee.

(2) The periodical contribution to be made out of the Municipal Fund shall be paid by cheques, to be drawn in favour of the Chairman or Secretary of the Dispensary Committee and credited to the ledger account of the Dispensary kept at the Treasury by transfer.

Class III-B.

182. All subscriptions and donations and other miscellaneous receipts collected by Managing Committees of Municipal Hospitals and Dispensaries in Class III-B shall be deposited intact in the Postal Savings Bank in the name of the Chairman or Secretary of the Managing Committee, who is authorized to withdraw therefrom such amounts as may be required for expenditure within budget limits. The Chairman of the Managing Committee shall send monthly *pro forma* account in Form 64 showing separately the charges paid from the municipal office and those paid in cash by the Chairman or Secretary. The latter amount will be brought to account in the municipal office through the Adjustment Register (Form 81) by debit to the head "4—Hospitals and Dispensaries—Charges to be met from special receipts and by credit to D—Grants, etc., 3—From other sources for medical purposes." Care shall be taken to make this adjustment for the month of March before the accounts of the year are closed. But for each institution vested in the Commissioners, a subsidiary balanced account shall be kept in Form 65 in which shall be credited (*a*) all endowments, funds and contributions received by the Commissioners on its behalf; and (*b*) all sums allotted in the budget estimates for its establishment and maintenance which are chargeable to the general revenues of the Municipal Fund and in which all expenditure incurred shall be charged. The balance of

this account which shall be struck at the close of each month shall not be appropriated to any object other than the establishment and maintenance of the institution to which it belongs.

The monthly *pro forma* accounts submitted by the Managing Committee shall be checked by the accountant with the balanced account kept in the municipal office.

183. Any hospital, dispensary, school, library, museum or such other properly constituted body vested in the Commissioners under section 97 shall submit to the Commissioners a copy of their sanctioned budget for approval.

CHAPTER X.

Debt Heads.

Advances.

Permanent Advance.

184. Whenever the Commissioners at a meeting decide that a permanent advance may be granted to any officer for payment of petty charges, the following procedure shall be adopted:—

(1) On first receiving or taking charge of the permanent advance the holder shall sign and file an acknowledgment in these terms:—"I acknowledge to have in my possession a permanent advance of Rs. (rupees) which sum is due from me to the Commissioners, and I am personally accountable for the amount."

(2) A similar acknowledgment shall also be given by the holder on the first working day of each year.

(3) The permanent advance when first drawn shall be charged in the Cash-book to the head "Advances" and shall be debited to the holder's account in the Advance Ledger.

There will be no further entries in the ledger account until the advance is finally repaid. A portion of a permanent advance shall never be refunded. If the amount originally fixed for the permanent advance is subsequently increased or decreased by the Commissioners at a meeting, the original advance shall be repaid and a fresh advance drawn.

OTHER ADVANCES.

185. All moneys advanced to contractors or to the Chairman, Vice-Chairman, Commissioners or other individuals under whose personal superintendence a work is being executed, all sums paid without proper vouchers, and any other advance that may be made shall in the first instance be charged to the head "Advances" and entered in the Advance Ledger (Form 66). A separate account

shall be opened in this ledger for each person to whom an advance has been given and this account shall be credited with the amount of any repayments that may be made.

Advances for works to be carried out departmentally should not be for the full sanctioned cost of the work, but should be restricted to the amount actually necessary to meet immediate payments; and as this amount is exhausted it can be recouped by submitting detailed bills for the expenditure incurred.

186. In the case of advances made to contractors or others for the execution of works, the account shall be credited with the actual value of work done upon receipt of detailed bills and proper vouchers for the expenditure incurred out of the advance. These adjustments shall be carried through the Adjustment Register in the manner prescribed in rules 249 to 251. Before the order for adjustment is made, the bills and vouchers put forward in support of the expenditure shall be passed by the Chairman or Vice-Chairman if authorized under section 52 or both in the same manner as other bills are passed. The passing order shall run thus:—

"Passed for rupees . Adjust Rs. by credit to advance account of , and debit to ."

187. The different accounts in the Advance Ledger shall be balanced quarterly and signed by the Vice-Chairman, Executive Officer or Secretary. The postings in the Advance Ledger shall be checked with the accounts at the end of each quarter.

The officer who signs the accounts shall at the same time satisfy himself that steps are being taken to recover or adjust advances which have been outstanding for more than three months. At the close of every quarter a list in Form 67 shall be prepared of outstanding advances.

Deposits.

188. All sums of money received by way of security deposit from contractors or others and all sums received which are not the property of the Commissioners and have been placed with the municipal authorities for a temporary purpose only shall be credited to the head "Deposits received" in the Abstract Register of Receipts (Form 79) and shall be entered on the credit side of the Deposit Ledger (Form 68). As in the Advance Ledger a separate account shall be opened for each depositor and the accounts shall be balanced quarterly and signed by the Vice-Chairman or Secretary.

189. In cases where deductions are made from the bills of contractors as security for the due performance of work the bills shall be passed by the Chairman or Vice-Chairman or both for the full amount due on the bill, but only the net amount paid shall be entered in the Cash-book (Form 77). The amount deducted as security shall be brought upon the municipal accounts and into the Ledger of Deposits (Form 68) through the medium of the Adjustment Register, in the manner described in rules 249 to 251. The payment order shall run thus:—

"Passed for Rupees

Pay Rs. by cheque and adjust Rs. by debit to and credit to deposit account of ."

190. At the close of every quarter a list of outstanding deposits shall be prepared in Form 69. The postings in the Deposit Ledger shall be checked with the accounts at the end of each quarter.

Register of Security Deposits other than Cash.

191. Security deposits in cash shall be entered at once in the Cash-book of the municipality and the Deposit Ledger and paid into the Treasury like revenue. All other forms of security such as Government paper, bonds for landed property and the like shall be recorded in a register in Form 70. When the security is surrendered the depositor shall give a receipt in the column provided for the purpose.

Government Security Register.

192. All Government securities which shall become, by purchase or otherwise, the sole property of the Commissioners shall be accounted for in Form 70. They shall not be written off this form unless disposed of absolutely by sale or otherwise, *e.g.*, Government securities merely made over to the Controller of Currency for safe custody under rules contained in Chapter VIII of the Government Securities Manual shall not be written off this account.

Annual verification of Securities.

193. The total amount of securities which are in the safe custody of the Controller of the Currency, Calcutta, shall be verified annually by the Vice-Chairman, Executive Officer or the Secretary with the list published by the Controller of Currency in the *Calcutta Gazette* at the close of each calendar year and a certificate of verification given in the remarks column of the register against each entry therein.

Securities which are in the custody of the Chairman himself will be verified by the Local Auditor at the time of audit.

Loan Register.

194. The transactions in regard to any loan contracted by the Commissioners shall be recorded in Form 71.

When a loan is raised in the open market under the condition that a Sinking Fund is to be formed for its payment, the payments to the Sinking Fund as they fall due shall be made to the Commissioner of the Division and the Collector of the District, who will hold the Fund in trust for the redemption of the principal of the loan. On receipt of the money the Trustees will lodge it in the Treasury for credit to a personal ledger account to be opened in their names, and as soon as a sufficient balance is available they will invest the same in Government securities for retention in the custody of the Controller of the Currency, vide chapter VIII of the Government Securities Manual. When any loans or debentures fall due, the Trustees will realize the whole or a sufficient portion of the securities held in their names and apply the sale-proceeds thereof, so far as they will extend,

to satisfy such loans or debentures. The interest accruing on the investment will be added to the balance of the trust account until the Sinking Fund is complete.

The transactions of the trust account will be recorded in a cash-book in Form I of the Account Rules for the guidance of the Administrators of Trust Fund issued by the Government of Bengal. As soon as possible after the 31st March in each year the Trustees may forward to the Chairman an abstract of the account in Form II of the Trust Fund Rules and obtain from him a written acknowledgment of the correctness of the account. The Trustees may bring to the notice of Government any default in payment to the Sinking Fund which is not immediately remedied.

Depreciation Fund for Waterworks and Sewage Works.

195. When a waterworks or sewage works is maintained by the Commissioners, they shall make an annual contribution to a fund called Waterworks/Sewage Works Depreciation Fund, for defraying the cost of renewal of parts of the plant, which are liable to rapid deterioration, as detailed in rule 196.

196. For the purposes of these rules, the average life of parts of plant shall be calculated from the assumed lines of the items mentioned below:—

	Years.
Small light oil engines	... 8
Light engines of bigger size	... 12
Crude oil heavy engines	... 20
Light high speed steam-engines	... 15
Heavy high speed steam-engines	... 20
Heavy slow speed steam-engines	... 30
Light reciprocating pumps	... 15
Heavy reciprocating pumps	... 30
Small high speed centrifugal pumps	... 15
Large high speed centrifugal pumps	... 20
Slow speed centrifugal pumps	... 25
Lancashire or cornish boilers	... 30
Small tubular boilers	... 15
Steel filter shells	... 20
Tube-wells	... 10
Electric motors	... 20
Mechanical filter parts	... 15
Sewage aeration machinery	... 15

The average life of a plant shall be calculated in the following manner:—

Example.—Suppose the Commissioners have the plant mentioned below:—

Plant.	Cost Rs.	Life Yrs.	
(*a*) Heavy oil engines ..	6,210	× 20 =	1,24,200
(*b*) Centrifugal pumps ..	3,417	× 25 =	85,425
(*c*) Filter parts (including chlorinator)	10,860	× 15 =	1,62,900
Total ..	20,487		3,72,525

Therefore the average life of the whole plant would be $\frac{3,72,525}{20,487}$=18 years.

197. The amount to be deposited in the said fund shall be included in the estimate of the recurring cost for upkeep of the works.

198. The amount of annual contribution to the Depreciation Fund shall be such that the contributions together with the amount by which the fund is improved by investment shall be equal, at the end of the period the plant is expected to last, to the original cost of the plant. For the purpose of this rule the rate of improvement shall be calculated at 2½ per cent. The annual contribution shall be calculated with reference to the following table:—

Table showing the annual sum which accumulated at compound interest will amount to 1 at the end of a period (vide Archer's Table).

Average life of the plant.	Fractional annual contribution at 2½ per cent.	Average life of the plant.	Fractional annual contribution at 2½ per cent.

17 ..	·0489	29 ..	.0248
18 ..	·0457	30 ..	·0237
19 ..	·0428		

Example.—If the value of the plant be, say, Rs. 2,000 and the assumed life be 20 years, the annual contribution to the Depreciation Fund (at 2½ per cent. rate of improvement) should be ·0401 × 2,000 rupees.

199. The contributions to the Waterworks Depreciation Fund shall at the end of each year be invested in Government securities or in postal cash certificates or kept in fixed deposits in the Imperial Bank of India, where a branch exists. Any small amount left over after such investment should be carried forward towards the investment to be made in the succeeding year. The Government promissory notes may be deposited for safe custody with the Treasury Officer and cash certificates with the Controller of the Currency.

200. When any expenditure is to be incurred out of this fund, the whole or such portion of the investment as may be required shall be realised for the purpose.

201. The interest accruing on the investment should be added to the corpus of the fund, the account of which shall be kept by the Commissioners in Form I of the Account Rules for the guidance of Administrators of Trust Funds.

202. Immediately after the close of each financial year, the Commissioners shall submit to Government, through the proper channel, and to the Chief Engineer, Public Health Department, an abstract of the accounts of the fund in Form II of the Trust Fund Rules.

203. The accounts of the Fund shall be audited by the local auditor along with the other accounts of the Commissioners and any default in the payment of the contributions or diversion of the Fund or any other irregularity shall be brought to the notice of Government through the audit report.

Appropriation Register.

Loans, Government Securities, Endowments and other Funds.

204. To watch the appropriation of funds raised by loan or special grants by Government or contributions intended for special purposes by individuals or local bodies an Appropriation Register shall be kept in Form 72. The expenditure shall be posted monthly from the Register of Works. Without the sanction of Government previously obtained no portion of such funds shall be appropriated even temporarily to any object other than that for which it was intended. Separate pages or sets of pages shall be set apart for each endowment or fund. Any unspent balance of a Government grant made for expenditure in a particular year shall lapse and shall not be available for expenditure in the subsequent year except with the sanction of Government.

CHAPTER XI.

Municipal Office Accounts.

Cashier's Cash-book.

205. All money received at the municipal office shall be immediately and without any reservation brought to account in the cashier's Cash-book to be kept up in Form 73 or if necessary in Form 74 under the direct supervision of the Vice-Chairman.

The method of posting Form 74 shall be the same as for Form 73 except that receipts shall be classified in the columns provided.

206. All receipts shall be entered daily in the Cash-book.

As regards receipt on account of collections for which separate registers are prescribed the totals only shall be entered against the

appropriate account head, "Total arrears" and "Total current" being shown separately in the case of tax collections made by sarkars.

Other receipts shall be entered with full details of names and particulars.

As far as possible all receipts under the same head shall be grouped together for facility of accounting.

207. Any revenue paid direct into the treasury either by servants of the Commissioners who are authorised to collect or by other persons, will not be entered by the cashier in his Cash-book, as he need keep a record only of the money which passes through his hands. Each servant who collects miscellaneous sources of income and remits money to the treasury shall keep a cash account in such detail as is necessary; but if the collections he makes are recorded consecutively in one of the prescribed registers and he can prepare his challan direct from the register, no further account is required. For example, if the License Inspector appointed to collect the horse and carriage tax remits his collections direct to the treasury instead of through the cashier, he can prepare his challan from Form 23 without keeping a separate cash account.

Custody of the Municipal Fund.

208. Subject to the provisions of section 106, all sums received on account of the Municipal Fund shall be paid into a treasury.

When moneys received or collected on account of the municipality cannot be immediately remitted to the treasury in which the Municipal Fund is deposited, they shall be kept in a strong iron-safe secured by two locks of different patterns. As an invariable rule, all the keys of the same lock shall be kept in the same person's custody and, as a general rule, the keys of one lock should be kept apart from the keys of the other lock and in a different person's custody. The custodian of one set of keys should be the Vice-Chairman or some other Commissioner or municipal officer who may be placed in charge of the cash-chest by the Commissioners in a meeting, and of the other, the cashier. The chest shall never be opened or closed without both custodians being present.

At the close of each day's transaction the cash shall be verified by actual count and the details of the cash balance shall be recorded in a bound book in Form 74A.

The cash balance certificate should be signed by the cashier and the Vice-Chairman or other Commissioner or municipal officer in charge of the cash-chest. The latter officer shall verify the cash balance and see that it agrees with the balance of the cashier's Cash-book for the same day (Form 73 or 74).

Note.—The provisions of the rules in this Chapter shall apply *mutatis mutandis*, so far as possible, to accounts of those municipalities whose funds are kept in a Bank, which is not used as a Government treasury, with the approval of the Local Government.

Remittance into the treasury.

209. All moneys received on account of the Commissioners shall be remitted intact to the treasury as often as can be conveniently managed and shall on no account be appropriated towards expenditure.

210. All moneys paid into the treasury to the credit of the Municipal Fund whether by servants of the Commissioners or by others shall be accompanied by a challan in Form 75.

If the remittance to the Treasury are all made through the cashier, the challan shall be in duplicate and the forms shall be bound in books. The second part shall be removed from the book and retained by the Treasury office, and the original and counterfoil shall be receipted by the Treasury officials and brought back to the municipal office by the servant sent with the remittance. When remittances are made by more than one officer or by a person not in the employ of the Commissioners the challans shall be in triplicate. The first part shall be retained by the Treasury office, the second part shall be sent at once to the municipal office, and the third part shall be delivered to the person paying in the money. Commissioners of municipalities not banking with Government Treasuries may use loose challan forms.

211. The details of each remittance classified according to the different heads of revenue will appear in the cashier's Cash-book (Form 73 or Form 74). The challans for remittance by the cashier shall therefore record only the name of the municipality on account of which the money is sent to the Treasury and the detail of the notes and coins of which the remittance is composed.

212. When a remittance is to be made to the treasury, column 5 shall be totalled and the details of challan and amount on the payment side written up. The Vice-Chairman shall sign or initial against the total of the remittance.

All receipts up to the time of remittance shall be included and a line shall be drawn across the book below the total.

No receipts which can be included in the challan shall be kept in hand. Any amounts received too late for inclusion in the remittance for the day shall be entered below the line mentioned above, but the date in column 1 shall be the actual date of receipt and not of remittance.

Pass-book.

213. With the remittance shall be sent the Pass-book of the Commissioners.

The total of the balance and the amount of outstanding cheques shall be made to agree with the corresponding balance shown in the Cash-book (see rule 228). The Vice-Chairman shall not sign the Cash-book until such agreement has been effected.

No entries or marks shall under any circumstances be made in the Pass-book by any one connected with or working in the municipal office.

The Pass-book will be supplied gratis by the treasury. It is not a municipal account book, but is simply a copy of the account kept in the Treasury of the money paid in and taken out by the Commissioners. It shall therefore always be written up only by the Treasury establishment by whom the original account is kept.

Upon receipt of the money by the Treasury both sides of the Pass-book will be written up to date by the Treasury Accountant, the entries

initialled by the Treasury Officer and the book returned at once to the municipal office.

At the close of each month the balance in the Pass-book will be struck by the Treasury Accountant with the amount written in words and shall be signed by the Treasury Officer.

214. The Vice-Chairman, Executive Officer or Secretary, shall once at least in every week examine the cashier's Cash-book together with the Pass-book, so as to satisfy himself that all money received has duly been remitted to the treasury without delay and that the cashier does not retain in hand sums of money in excess of the security which he may have given, and that he always remits to the Treasury the whole and not part of the day's receipts and he shall initial the Cash-book in token of having made this examination. He shall further once at least in every fortnight examine the cashier's and the accountant's Cash-books with all the subsidiary forms (other than rate bill forms) and registers in which receipts are given or collections recorded with the view of testing whether all sums received are actually brought to account promptly. (See rule 234 below).

215. The Chairman, the Vice-Chairman, the Executive Officer, the Secretary or any other disbursing officer shall exercise the same vigilance in respect of all expenditure out of the Municipal Fund as a person of ordinary prudence would exercise in spending his own money. If there be any loss to the Municipal Fund, the officer who incurred the expenditure shall be liable for the same.

Payment orders and payment of claims.

216. Claims against the Commissioners shall ordinarily be discharged by cheques drawn upon the treasury.

217. Every bill or other claim for payment shall be presented in the first instance to the Accountant who shall check and examine it as regards arithmetical accuracy, propriety of the claim, and its admissibility with reference to sanction, order book, measurement book or other documents, and if it be found to be correct and in order, initial it and submit it for orders to the Chairman or Vice-Chairman. If payment of the bill so presented is to be made a payment order shall be endorsed on the documents, that is to say, on the bill presented by the person who prefers the claim. The payment order shall, except as otherwise provided in rule 189, run as follows:—

"Pay (Rs.) rupee only," the amount being written in words as well as in figures and the order shall be signed by the Chairman or Vice-Chairman, if the amount to be paid does not exceed Rs. 500. If both the Chairman and Vice-Chairman be absent or be unable to sign, no order for payment shall be made on the bill. Orders for the payment of a sum of money in excess of Rs. 500 shall be signed both by the Chairman and Vice-Chairman or by the Chairman or Vice-Chairman and another Commissioner.

Before passing a cheque the Chairman or Vice-Chairman shall satisfy himself that the amount is available against the balance of the Municipal Fund or a loan or other special fund, as the case

may be, to which the amount is debitable. A reference to the appropriation register maintained under account rule 204 will show the amount of the unspent balance of the loan or other special funds. Deducting this sum from the balance of the general cash-book on any day (the receipts and expenditure being roughly totalled for the purpose of working out the figure), the available balance of the Municipal Fund proper will be obtained.

"*Note.*—The 'Special Funds' referred to above are 'grants from Government' or 'contributions by Local Bodies or individuals' for earmarked objects."

218. All bills for sums exceeding Rs. 20 shall be paid by cheque; claims for smaller sums shall be paid in cash from the permanent advance.

(Vide rules 141 to 143 for recoupment of the permanent advance.)

219. If the bill is to be paid out of the imprest, the Chairman or the Vice-Chairman shall sign the pay order on the bill and make it over to the accountant or cashier for payment. The accountant or cashier shall after payment stamp the voucher with the words "Paid in cash" in conspicuous type. This shall be attached as a sub-voucher to the next contingent bill (Form 48). If the bill is to be paid by cheque, it shall be made over to the accountant. The cheque shall be written out by the accountant and the bill stamped "Paid by cheque No. dated " in conspicuous type. Both the bill and the cheque shall then be placed before the Chairman or the Vice-Chairman, or the Executive Officer, or the Secretary, authorized by the Commissioners at a meeting to sign the cheque. He shall then sign the cheque and initial (with date) the "Paid" endorsement on the bill in token of having signed the cheque for the bill.

The amount of the cheque shall be entered in the Cash-book as soon as the cheeque is signed.

220. Every payment made either in cash or by cheque shall be covered by a receipt, stamped, if necessary, and signed by the person to whom the money is due. If payment is made to another person duly authorised by the payee to receive payment on his behalf, the signatures of both are necessary.

A receipt signed by any other person or by a municipal employee is invalid.

221. Payments to illiterate persons shall be attested by one competent witness in addition to the paying officer.

When the payee signs in vernacular, the paying officer shall require the payee to acknowledge the amount in the same vernacular.

222. All bills that have been paid shall be numbered consecutively for the year in order of payment, and shall be pasted in a guard book.

Sub-vouchers for payments made out of the imprest shall be filed in a separate guard book and shall be attached to the imprest bill for recoupment, a memorandum being kept in its place in the general guard book.

Unpaid Bill Register.

223. All claims which are preferred and accepted shall ordinarily be paid at the earliest possible date. If a bill is presented and payment is not made within a month of its presentation or if the claim is contested it shall be entered in the Unpaid Bill Register in Form 76.

224. The Unpaid Bill Register and the Register of Works (Form 56) being required for ascertaining the unpaid demands for which provision is to be made in the next year's budget (see rule 26), at the close of the year the unpaid amounts shall be shown in the column "Balance" and be carried forward to the register of the next year. To ensure a complete record of the liabilities in cases where bills may not have been presented, all orders for supplies or works other than those for which formal agreements have been taken and particulars of which are entered in the Register of Works shall be entered in an Indent Register (Form 62).

Where a large number of petty orders are given on any particular account, such as fodder, kerosine oil, etc., for which periodical bills are received, a separate register shall be kept for it.

The unpaid Bill Register and the Register of Works shall be reviewed by the Vice-Chairman, the Executive Officer or the Secretary at least once a month along with the relevant records, etc., to ensure their correctness at all times.

Note.—See rule 173.

Cash-book.

225. The Cash-book shall be kept in English in Form 77 by the accountant. It shall be a substantially bound volume, containing a sufficient number of pages to contain at least one year's transactions. It shall be carefully paged before being brought into use.

226. As soon as the Pass-book is received back from the Treasury (*see* rule 213), the accountant shall compare and verify the entries in the Pass-book with the duplicate challans and the cashier's Cash-book to ensure that all remittances have been duly brought to account in the Treasury and the accountant will then write up the receipt side of his Cash-book (Form 77) from the challans and the cashier's Cash-book.

In writing up his Cash-book the accountant shall transcribe the totals only under the various account headings in the cashier's book into his Cash-book, but at the same time he shall prove the compilation of the account and test the accuracy of the amount and the classification of the items forming the totals by referring to all the forms and registers in which receipts are given or collections recorded. All miscellaneous receipts and license book counterfoils shall thus be checked daily by the accountant, but the collections of municipal taxes should be compared only with the sarkar's collection registers after they have been duly checked without scrutinising the counterfoils of the bills.

The date of receipt to be shown in the accountant's Cash-book shall be the date on which the challan is received by the Treasury Officer as shown by his stamp and initials on the counterfoil.

227. The payment side of the Cash-book shall be posted from the details of the vouchers and of the cheques drawn. The amount of each cheque shall be entered as soon as the cheque is signed.

Note.—See rule 233.

Closing of the Cash-book.

228. The Cash-book shall be balanced on the last working day of every month and signed by the Chairman or Vice-Chairman in token of the correctness of every entry made therein. The balance brought out shall be stated both in words and figures, and shall within three days of the close of the month be agreed with the balance shown in the Treasury Pass-book, thus:—

	Rs. A. P.
Balance as per Cash-book	...
Add cheques drawn but not yet cashed	...

	Rs. A. P.	
No.		
No.		
Deduct value of challans credited in the Cash-book but not appearing in the Pass-book		...
Balance as per Pass-book		...

When a cheque has been cancelled (*see* rule 250), it will not be entered in the list of cheques drawn but not cashed.

Where the Commissioners have transactions with a bank and a treasury or two banks the details of cheques, challans and pass books relating to each should be shown separately.

Vice-Chairman's Quarterly Review.

229. The Vice-Chairman shall at least once a quarter review the Register of Works (*see* rule 169), the Stores Registers (*see* rules 182 and 183), the Indent Register (*see* rule 173), the Register of Unpaid Bills (*see* rule 223) and the Register of Lands (*see* rule 261) and shall submit to the Commissioners at a meeting, a consolidated balance sheet in form 77A showing their assets and liabilities.

The Chairman shall submit a copy of the balance sheet to the District Magistrate not later than the 15th day after the close of the quarter to which the statement relates.

Cheques.

230. Cheques drawn on a treasury shall be in Form 78. The drawing officer shall notify to the Treasury upon which he draws the number of the cheque book which he from time to time brings into use.

Cheque books containing 100 cheques each will be provided by the officer in charge of the Treasury. Each book will bear a number which shall be repeated upon each cheque contained in it, together with the consecutive number of each cheque form. The drawing officer shall keep the cheque book under lock and key in his personal custody and when relieved, shall take a receipt for the correct number of cheques made over to the relieving officer, a specimen of whose signature shall at the same time be forwarded to the treasury concerned.

231. On receipt of a cheque book from the treasury, the officer to whom the duty of signing cheques is allotted shall count the cheques and shall record on the back of the cheque book: "This cheque book contains forms." The cheque book shall remain in the custody of the officer who usually signs the cheques.

232. The cheque book in use may be made over to the accountant or cashier whenever required, but it shall be returned before the office is closed for the day and shall on no account be left in the entire charge of any subordinate.

The officer in whose custody it is to remain shall satisfy himself periodically that all unused cheques are in the book and that none have been surreptitiously extracted.

233. No cheques shall ordinarily be signed unless required for immediate delivery to the person to whom the money is to be paid. The practice of retaining signed cheques in the office shall not be permitted.

234. Every cheque shall be drawn in English in favour of the person to whom the money is actually to be paid and no cheque shall be drawn in favour of one person for payment to another.

The sole exceptions permitted to this rule are in the case of a cheque issued (*a*) for a sum of money distributable as pay or wages among a number of municipal employees, and (*b*) for a sum of money due to a person residing outside the district where the treasury with which the municipality banks is situated. In the former case the cheque shall be drawn in favour of the Chairman, Vice-Chairman, Executive Officer or Secretary who will endorse the cheque by name to the person by whom the actual distribution is to be carried out, and in the latter case, the cheque shall be drawn in favour of the postmaster of the principal post office within the municipality and shall be sent to him with the money-orders included in the cheque.

The postmaster will accept the cheque and give separate receipts for each money-order in the usual way. In the case of payment of sums due to Government, the cheque shall be made payable to the officer in charge of the department concerned, when the money to be remitted is accounted for by a special department of Government apart from the treasury, such as the Income-tax or the Land Acquisition Department. In other cases the cheque shall be drawn in favour of the Treasury Officer and forwarded to him for credit to Government.

235. The amount of every cheque drawn shall be written in words as well as in figures both on the cheque itself and on the counterfoil which shall be initialled by the person who signs the cheque. The amount of the cheque should be so recorded as to render any alterations, interpolations or insertion quite easily noticeable; this word "only" shall be added after the amount written in words where the amount does not contain annas or annas and pies.

236. Cheques shall be signed either by the Chairman or Vice-Chairman and they may also be signed by the Executive Officer or the Secretary if the Commissioners at a meeting so direct; but in that case a copy of the resolution empowering the Secretary to sign cheques shall be sent to the Accountant-General, Bengal, and also to the treasury where the account is kept.

237. If the Commissioners of any Municipality have disregarded on a previous occasion an order passed under section 116, on their budget, the Government, or the officer authorised by them to sanction such budget, may, if considered necessary, issue an order directing that such Commissioners shall not present to the Treasury any cheque for payment (of establishment or any other specified charges) without previously obtaining the countersignature of the District Magistrate or the Subdivisional Officer (according as the cheque is presented to a district or subdivisional Treasury), and in such a case the Treasury Officer shall not make any payment unless the cheque is so countersigned. A copy of any such order shall be sent by him to the Accountant-General, Bengal, and through the District Magistrate to the Treasury Officer.

238. If the Commissioners of a Municipality situated in a subdivision and banking at a Sub-treasury require money to be paid at the District Treasury, a cheque may be drawn for the amount upon the Sub-treasury with a request that an order may be issued for the payment of the amount from the District Treasury, and *vice versa*.

Cancellation of Cheques.

239. When a signed cheque is cancelled it shall be stamped or enfaced "Cancelled" by the drawer of the cheque.

The fact of cancellation shall be noted in red ink under the initials of the drawer of the cheque upon the counterfoil and also across the passing order which has been enfaced upon the voucher.

Note.—The cancelled cheque will be destroyed by the Government Auditor as soon as the accounts for the month in which the cheque was drawn have been audited.

Correction of the Cash-book and Abstract Register when Cheques are cancelled.

240. If the cheque is cancelled before the cash transactions of the month in which it was issued have been totalled, the entry in the Cash-book and also in the Abstract Register shall be struck out in red ink under the initials of the Chairman or Vice-Chairman.

If, however, the Abstract Register has been totalled the amount of the cheque shall be credited in the Cash-book as a miscellaneous receipt, and if the correction is made in the year in which the cheque was issued, "deduct entries" shall also be made in the Adjustment Register under that head and the head of expenditure to which it was originally charged.

241. No fresh cheque shall be issued, in place of the lapsed cheque, the lapsed cheque shall simply be re-dated and the alteration initialled by the Chairman or official whose duty it would be to sign the cheques. A note of the fact of re-dating shall be entered in the

Cash-book against the original transaction and upon the counterfoil of the cheque itself as the alteration will in no way affect the accounts and no further entries shall be made.

Note.—Cheques are current for three months only. After the expiration of that period payment will be refused at the Treasury, and the person in whose favour the cheque was drawn will therefore have to bring it back to be re-dated.

242. When a cheque is reported as lost during the period of its currency, the Chairman shall forward to the Treasury Officer concerned a certificate in the following form for signature:—

Certified that cheque No....., dated..... for Rs....., reported by the disbursing officer to have been drawn by him on this treasury in favour of .....has not been paid and will not be paid if presented hereafter.

Treasury Officer.

Treasury,

The.....19...

243. On receipt from the Treasury Officer of the certificate signed by him a new cheque can be drawn in lieu of it and the fact of the loss and the number and date of the new cheque will be recorded on the counterfoil of the lost cheque and the number and date of the old cheque that is lost will be recorded on the counterfoil of the new one. The fact of the new cheque having been issued will be entered on the date of issue in red ink parenthetically in the Cash Book but not in the column for payment. A note will also be made against the original entry in the Cash Book.

244. All cheques drawn in favour of the Chairman or the Vice-Chairman for payment of (1) establishment, (2) wages of sweepers, etc., (3) and others in which cases it is not possible to make direct payments by cheques in favour of the payees shall be entered in the Register of disbursement of cash drawn in cheques in favour of the Chairman or the Vice-Chairman (Form 76A). The amounts actually disbursed shall be entered in the register daily and the closing cash balance shall be written in words across the pages at the close of every day's transaction and signed by the Chairman or the Executive Officer or the Secretary.

Abstract Registers of Receipts and Expenditure.

245. All the entries on the receipt side of the Cash-book (Form 77) shall be posted by the accountant one by one direct from the Cash-book into the Abstract Register of receipts (Form 79), and all the entries on the payment side of the Cash-book shall be similarly posted into the Abstract Register of expenditure (Form 80).

When transactions under any head are very numerous, it will be best to open two or more columns with the same headings, and the headings under which there can be no transactions may be omitted.

246. The Abstract Registers shall be kept in English and shall be posted as often as may be convenient, but in no case later than 10 days after the close of the month to which the account relates.

247. The cash transactions in the Abstract Registers shall be totalled every month and the grand totals of the different heads of receipts and expenditure must necessarily be equal to and shall be compared by the Vice-Chairman, Executive Officer or Secretary with the total receipts and payments in the Cash-book. He shall initial the Abstract Registers in token of having made this comparison.

Adjustments.

248. The adjustments in the Abstract Registers shall represent the totals in the Register of Adjustments described below.

For the record of transactions other than cash a Register of Adjustments shall be opened in Form 81.

249. The chief adjustments are—

(1) Rectifications of errors in classification.

(2) The adjustment of a bill against an advance.

(3) The charge to a head of expenditure by credit to deposits of a sum due on a contractor's bill which sum is retained as security deposit.

(4) Adjustment due to refunds of income or recoveries of expenditure.

These transactions shall be entered item by item in the Register of Adjustments whence the total shall pass into the Abstract Registers of receipts and expenditure, but before the postings are made in the Abstract Registers, the net total of the receipt heads shall be agreed with the net total of the payment heads.

250. The methods of entry in the Register of Adjustments shall be as follows:—

In case (1) the adjustment shall be made by entering the amount in the space for "add entries" in the column for the head to which the amount is to be added, and again in red ink in the space for "deduct entries" in the column for the head from which the amount is to be deducted. Both entries will be made on the receipt side, if the amount is to be transferred from one head of receipt to another; and both will be made on the expenditure side if the amount is to be transferred from one head of expenditure to another.

In case (2) the adjustment shall be made by entering the amount in the space for "add entries" in the column of the expenditure side for the head to which charges on account of the particular expenditure incurred are to be taken and on the receipt side in the space for "add entries" under the head "advances recovered." A corresponding entry shall be made on receipt or credit side of the Advance Ledger (Form 66) of the person by whom the expenditure was incurred and to whom the amount adjusted was originally advanced.

In case (3) the adjustment shall be made by entering the amount on the expenditure side in the space for "add entries" in the column

for the head to which the balance of the charges of the bill from which the deduction has been made has been taken, and on the receipt side in the space for "add entries" under "deposits received."

In case (4) an adjustment shall be made only when the income was originally received or the expenditure incurred in the same year in which the refund or recovery is made. When income is refunded the refund shall be charged to the major head of expenditure corresponding to the major head of receipt to which it was originally credited, or if there be no such head to "Miscellaneous." The amount shall then be deducted in the Adjustment Register from both the head of receipt to which it was originally credited and the head of expenditure to which the refund is charged. When expenditure is recovered the amount shall be credited to the major head of receipt corresponding to the major head of expenditure to which it was originally charged or if there be no such head to "Miscellaneous." The amount shall then be deducted in the Adjustment Register from both the heads of expenditure to which it was originally charged and the head of receipt to which the recovery is credited.

Note.—Adjustments affecting the advance and deposit heads shall be made even after the close of the year.

251. Adjustments made by deduction in the Abstract Registers shall always be written in red ink.

Quarterly and Annual Account.

252. At the close of every month the totals under the various heads of account recorded in the Abstract Registers (Forms 79 and 80) shall be entered in English by the accountant in the separate registers in Forms 82 and 83 against the corresponding heads under the appropriate month.

If it is desired to show the expenditure in greater detail than according to the prescribed budget heads additional detailed heads may be inserted in the Register of Expenditure.

The particulars of the charges to be posted under those heads can be obtained from the Cash-book or vouchers. An account showing the receipts and expenditure during the quarter year in Form 84 and duly balanced shall be prepared immediately, after the close of each quarter year and duly published.

253. As soon as possible after the close of the year and not later than the 15th April following the totals of the receipts and expenditure of the year as worked out in the last columns of the registers (Forms 82 and 83) shall be posted in English by the accountant into the annual account in Form 84.

254. A copy of this account shall be sent not later than the 30th April following to the Commissioner of the Division through the District Magistrate.

255. To enable the Commissioner of the Division to make the prescribed comparison between the estimate and the actual receipts and expenditure of the municipality, the amounts by which the actual figures fall short of or exceed the estimated figure shall be shown in the two separate columns provided for the purpose within the body of Form 84.

Office Order Book.

256. An Office Order Book shall be kept by the Commissioners in which all appointments, promotions, leave, suspensions, fines and office arrangements and orders generally shall be noted. The Vice-Chairman or the Executive Officer shall see that this Order Book is kept in a correct and complete manner.

Establishment Check Register.

257. The whole establishment of the Commissioners shall be recorded in the Establishment Check Register (Form 85) in which every appointment as made shall be entered. When any revision of the establishment is made the details of the revision shall be noted in the register, the number and date of the resolution or order being quoted in column 1 thereof. The original scale as well as all subsequent changes shall be authenicated by the Chairman or Vice-Chairman or Executive Officer with a quotation of the number and date of the sanction in support.

258. Details of every establishment bill after it is checked by the Accountant shall be posted into the Establishment Check Register (Form 85). Pay shall be recorded under the month for which it is due and not under that in which it is disbursed.

Temporary Establishment.

259. Temporary establishment shall be entered in the Establishment Check Register (Form 85) at the end of the space allotted for the permanent establishment and shall not be mixed up with it. The period for which the temporary establishment is sanctioned shall be distinctly specified in the second column below the details of appointments sanctioned, and lines shall be drawn across the columns of the months previous and subsequent to such period, so as to prevent admission by oversight of pay for a period in excess of sanction.

Other Recurring Charges.

260. When the Commissioners incur recurring charges (other than loans) on account of scholarships, contributions, rents, etc., payments on account thereof shall be recorded and checked in the same manner as establishment charges. The Establishment Check Register (Form 85) shall be used for the purpose, separate pages being opened therein for these charges.

Register of Lands.

261. A proper record of all lands including roads, lands on road sides, sites of buildings, tanks, etc., in the possession of the Commissioners shall be kept in Form 86.

If any plot of land shown in the register is sold or is otherwise transferred from the possession of the Commissioners, the entry for it shall be struck off and the facts in connection with the transfer stated in the column for remarks under the initials of the Chairman or the Vice-Chairman. This register shall be annually examined by the Chairman and attested with his signature and date.

Register of Tools and Plant.

262. All property which is not recorded in the municipal stock books (Form 58) or in the Register of Lands (Form 86), *e.g.*, tools and plant, conservancy or watering carts, road rollers, lamps, lamp-posts, ladders, scales, weights, etc., shall be recorded in a Register of Tools and Plant in Form 87. When any such property is subsequently disposed of by sale or in any other manner, the details of disposal shall be entered in column 7 by the officer in charge. This officer shall be responsible that the register is a complete record of the municipal tools and plants which should be shown therein.

Annual verification of Property.

263. The Chairman, or one or more representatives of the Commissioners appointed by him in this behalf, shall verify such percentage of the municipal property referred to in these rules as the Chairman may decide, provided that not less than 10 per cent. of the property entered in each of the registers of stock books prescribed by the rules abovementioned shall be verified each year.

264. The verifying officer shall initial each entry which he has verified and shall sign a certificate that he has personally verified the existence of whatever percentage he may have checked of the articles entered in the register of stock book.

265. The verification of the entries in each separate register or stock book shall be so far as possible be completed in one day.

It is not necessary that all the registers and stock books should be verified on the same day or at one time of the year. It will in fact ordinarily be safer if the various checks are carried out at irregular times.

266. The date on which each item of stores was actually counted shall be entered in the Stock Register or the half-yearly balance return.

Destruction of Vouchers and other Records.

267. Vouchers, registers and other accounts and forms prescribed for the use of Commissioners shall not be weeded or destroyed otherwise than in accordance with the Appendix to these rules.

The Chairman or the Vice-Chairman shall give the necessary orders for destruction after personal inspection.

CHAPTER XII.

268. The municipal rates, taxes, license fees, rents, etc., shall ordinarily be realised by the collecting sarkars or by issue of distraint warrants, as provided in the Act. In exceptional cases, where civil suits are to be filed for the recovery of the municipal dues, sanction of the Commissioners at a meeting shall be obtained for filing them.

269. All suits filed shall be entered in the Register of Civil Suits (Form 88) and costs incurred in conducting the suits and in execution of decrees shall be noted in the register against each suit to work out the total dues. The amounts recovered and the action taken to recover the balance, if any, shall be noted against each. The register shall be examined by the Chairman or the Vice-Chairman every month.

270. No suit shall be compromised without the sanction of the Commissioners at a meeting.

271. All prosecutions filed under the Bengal Municipal Act, 1932, the Bengal Food Adulteration Act, 1919, or any other Act, shall be entered in the Prosecution Register (Form 89). No. 2191P.H.—24th October 1934.—The following draft of rules, which in exercise of the powers conferred by clauses (*a*), (*b*), (*c*) and (*m*) of section 311 of the Bengal Municipal Act, 1932 (Bengal Act XV of 1932), the Government of Bengal (Ministry of Public Health) propose to make in supersession of the rules published with notification No. 1806M., dated the 16th October 1917, as subsequently amended, is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 15th January 1935, and any objection or suggestion with respect thereto received by the undersigned through the District Magistrate before that date will be duly considered:—

Rules for the preparation, publication and execution of projects for water-supply, sewerage or drainage by municipal authorities.

1. *Definition.*—In these rules—

(*a*) "municipal authority" means the Commissioners of a municipality constituted under the provisions of the Bengal Municipal Act, 1932, and includes a joint committee constituted under sub-section (*1*) of section 87 of that Act.

(*b*) "Chief Engineer" means the Chief Engineer, Public Health Department.

(*c*) "Sanitary Board" means the persons for the time being appointed, either by name or by official designation, by the Local Government by notification in the *Calcutta Gazette* to constitute a Sanitary Board.

2. *Preparation of sketch of project.*—(*1*) Whenever a municipal authority desires to undertake a project for water-supply or sewerage, or a comprehensive scheme of surface drainage, or the improvement or extension of existing works of this description, it shall first cause to be drawn up a sketch of the project roughly showing its scope and estimated cost.

(*2*) Such sketch may be drawn up—

(*a*) by the Chief Engineer, at the request of the municipal authority; or

(*b*) by any private firm approved by the Chief Engineer; or

(*c*) with the permission of the Chief Engineer, by the District Engineer, for whose services an application should be made to the District Board; or

(*d*) by one of the officers of the municipal authority or by an officer specially appointed by such authority for the purpose, subject in either case to the selection of such officer being approved by the Chief Engineer.

(*3*) In cases (*b*) to (*d*) referred to in sub-rule (*2*), the sketch of the project, while in course of preparation, shall be subject to examination and amendment by the Chief Engineer.

(*4*) The Chief Engineer shall, in all cases, act as adviser of the municipal authority.

3. *Submission of sketch, statement and application.*—(*1*) When the estimated cost of any scheme, or of any larger scheme of which it forms a part, is Rs. 10,000 or more, or when the financial assistance of the Local Government is desired, the municipal authority shall submit the sketch of the project prepared under rule 2 to the Sanitary Board through the Commissioner of the Division, together with a statement wherein shall be shown the amount of the funds available to meet the capital and recurring cost of the project from current revenue or by way of loan or from any other source.

(2) The Sanitary Board, after considering the project, shall forward it to the Local Self-Government Department of Government for decision as to administrative approval with such recommendations as they may think fit, and, if the project relates to local areas under the control of two or more local authorities, with proposals for the distribution of the cost.

4. *Conditions precedent to obtaining administrative approval of the Local Government to a project.*—In order to obtain the administrative approval of the Local Government to any such project, the municipal authority shall satisfy the Local Government—

(1) that the cost of maintenance of the projected work can be met by the municipal authority from municipal revenue;

(2) that any loan required to meet the cost of the work can be repaid, together with the interest thereon, within the period that may be prescribed by the Local Government; and

(3) that the work can be done effectually in the manner and for the cost proposed.

5. *Procedure after grant of administrative approval: preparation of detailed plans and estimates.*—(1) When the administrative approval of the Local Government has been obtained to the project (but in no case before such approval, except with the previous sanction of the Local Government), the municipal authority may arrange for the preparation of detailed plans and estimates, and for this purpose may—

(a) apply for the services of the Chief Engineer, or

(b) with the previous sanction of the Chief Engineer—

(i) entrust the work to a private firm; or

(ii) apply to the District Board for the services of the District Engineer; or

(iii) cause the plans and estimates to be prepared by one of its own officers, or by an officer specially appointed for the purpose, subject in either case to the selection of such officer being approved of by the Chief Engineer, who shall first satisfy himself that the officer is fully qualified for the work in question.

(2) In case (a) referred to in sub-rule (1) application shall not be made for the preparation of plans and estimates for alternative schemes, unless the municipal authority at the same time undertakes to pay for each such scheme the fees laid down in rule 31.

(3) In case (b) referred to in sub-rule (1), the plans and estimates, while in course of preparation, shall be subject to examination and amendment by the Chief Engineer.

(4) When land has to be acquired, the officer preparing the scheme shall send necessary particulars of such land to the Collector of the district and shall obtain from him an estimate of the cost of its acquisition. This estimate shall be submitted with the main scheme as a separate estimate.

6. *Submission of detailed plans and estimates for approval.*—(1) The detailed plans and estimates shall, on completion, be forwarded by the municipal authority in duplicate to the Sanitary Board through the Commissioner of the Division, together with the particulars required by rule 8 and a report on the state of public feeling in regard to the scheme and, if a loan is required, with an application in the prescribed form.

(2) If the scheme is for the improvement or extension of existing waterworks, the particulars mentioned in sub-rule (1) shall be accompanied by a statement showing in detail the financial position of the water-supply fund of the municipality.

(3) If the scheme is a drainage scheme the estimates shall be submitted in forms to be obtained from the office of the Chief Engineer.

(4) When the scheme has not been prepared in the office of the Chief Engineer, it shall be accompanied by full details of the calculations of the size and strength of the various works and complete information as to the prices on which the estimates have been based.

(5) The Sanitary Board shall submit the scheme as finally drawn up to the Local Self-Government Department of Government for approval, with an expression of their opinion (*a*) on its merits and (*b*), if a loan is required, on the terms of such loan.

7. *Submission of proposals for rules regulating house-connections.*—If the scheme includes projects with the intention of allowing house-connections, the municipal authority shall, within three months of submitting the detailed plans and estimates under rule 6, submit proposals for rules under section 311 of the Act regulating house-connections, with explanations of any variation proposed from the model house-connection rules.

8. *Publication of the scheme after its approval by the Local Government.*—(*1*) When the scheme has been approved by the Local Government, it shall be published in the *Calcutta Gazette*, and locally in accordance with the provisions of section 507 of the Act, with the following particulars, namely:—

(*a*) a general description of the scheme;

(*b*) an estimate of the cost of carrying it out;

(*c*) an estimate of the cost of maintaining it;

(*d*) the source from which the cost will be met;

(*e*) the amount of the loan, if any, required for the scheme, the annual instalments by which such loan will be repayable, and the number of years required to repay it; and

(*f*) when several local authorities are concerned, the distribution of the loan between those authorities.

(*2*) Where the scheme is for providing or improving the water-supply, the following additional particulars in respect of each municipality concerned shall be also published in the manner described in sub-rule (*1*), namely:—

(*a*) the total annual charge to be incurred by reason of the water-supply and to be met by a water-rate;

(*b*) the percentage of such water-rate on the annual value of holdings;

(*c*) the average incidence of such water-rate per head of the population.

9. *Final sanction of schemes after considering objections, if any.*—After the expiry of six weeks from the date of the publication under rule 8, and after considering any objections or suggestions that may be received, the Local Government may either sanction or reject the scheme as published, or may refer it, with such proposals for amendment as it may think fit, to the Sanitary Board, who, after considering the scheme and proposals, shall return the scheme to the Local Government together with the opinion of the Board on the proposals; and the scheme and opinion so returned shall be published and disposed of by the Local Government in the manner provided in rule 8 and in this rule.

10. *Commencement of work.*—No work shall be commenced on the project, nor shall any agreement be entered into in respect thereof, until the detailed plans and estimates have received the final sanction of the Local Government under rule 9.

11. *Sanction to heavy excesses over detailed estimates.*—If at any time during the progress of the work the municipal authority has reason to anticipate that the sanctioned detailed estimate will be exceeded by more than 10 per cent., or if it shall at any time appear to the municipal authority that the sanctioned detailed scheme will require material alteration, the municipal authority shall forthwith submit to the Local Government for approval a revised scheme with revised estimates and plans.

The revised estimates and plans shall be prepared—

(*a*) in the case of schemes prepared and carried out by the Municipal Engineer under rules 5 (*1*) (*b*) (*iii*) and 13 (*2*) (*a*), by that officer and shall be scrutinized by the Chief Engineer.

(*b*) in the case of schemes prepared and carried out by a firm of engineers of established reputation, or by an engineer specially appointed for the purpose under rule 5 (*1*) (*b*) (*i*) or 5 (*1*) (*b*) (*iii*) and rule 13 (*2*) (*a*), by the firm of engineers or the engineer so appointed, and shall be scrutinized by the Chief Engineer.

(*c*) in the case of schemes prepared and carried out by the District Engineer under rules 5 (*1*) (*b*) (*iii*) and 13 (*2*) (*b*), by that officer and shall be scrutinized by the Chief Engineer.

(*d*) in all other cases, by the Chief Engineer.

12. *Taking over of complete supervision and control by Chief Engineer.*—(*1*) The Chief Engineer shall have complete supervision and control of the carrying out of all schemes of water-supply, sewerage and drainage towards which the Local Government make a grant amounting to Rs. 50,000 or more, or to half the total cost of the scheme, or more. The municipal authority shall undertake to pay the fees specified in rule 33 before work on the scheme is begun.

(*2*) In other cases the municipal authority may request the Chief Engineer to take over supervision and control of the work, and on the municipal authority undertaking to pay the fees specified in rule 33, the Chief Engineer shall, if he considers that he can do so without detriment to the public service, take over such supervision and control.

(*3*) Works, of which the complete supervision and control are taken over by the Chief Engineer under sub-rule (*1*) or sub-rule (*2*), shall be considered as contribution works and shall be carried out by the Engineering Branch of the Public Health Department under the rules regarding such works in paragraphs 210 to 214 of the Bengal Public Works Department Code (1st edition), except that the provision made in the Code for establishment, etc., will be covered by the fees specified in rule 33 hereof, or shall be met by the municipal authority by payment of such fees as the Local Government may from time to time prescribe.

(4) In addition to the above fees the municipal authority shall bear all law charges on behalf of the Local Government in any suits brought by contractors or others in connection with the execution of any project under this rule:

Provided that no charge shall be payable by the municipal authority under sub-rule (*4*), if, in the opinion of Local Government, the suit is due to the malfeasance or negligence of the Chief Engineer or an officer subordinate to him.

(*5*) The municipal authority shall be given an opportunity of seeing the terms of any contract for the execution of such work before it is executed. The Chief Engineer shall consider any remarks made by the municipal authority as to the terms of the contract and if he is unable to accept the remarks shall submit the matter to the Local Government for decision.

13. *Conditions as to detailed engineering supervision.*—(*1*) Where the projected work is estimated to cost Rs. 10,000 or more, adequate provision for detailed engineering supervision shall be a condition precedent to the grant of final sanction by the Local Government under rule 9.

(*2*) Save as otherwise expressly directed by the Local Government—

(*a*) the work shall be carried out under the supervision of an engineer, either permanently employed by the municipal authority or specially employed for the purpose, assisted by an adequate establishment of properly qualified overseers, the name and qualifications of the engineer having been previously submitted to the Chief Engineer, and approved by him; or

(*b*) with the previous approval of the Chief Engineer, arrangements shall be made with the District Board for the carrying out of the work under the supervision of the District Engineer and his staff; or

(*c*) the work shall be carried out under the complete supervision and control of the Chief Engineer in the manner provided in rule 12.

(3) In cases (*a*) and (*b*) referred to in sub-rule (2), the work while in progress shall be subject to inspection and control by the Chief Engineer.

14. *Report by municipal authority to the Chief Engineer in case of small work.*—Where the work is estimated to cost less than Rs. 10,000 and where a grant or loan has been taken from the Local Government, the municipal authority shall report to the Chief Engineer, the agency by which it is proposed to have such works carried out, and shall follow the instructions issued by the Chief Engineer in the matter.

Tenders and Contracts.

15. *Procedure to be followed in case of other works.*—In the case of works carried out under clause (*a*) or clause (*b*) of rule 13 (2) the procedure provided by rules 16 to 27 shall be followed.

16. *Preparation of drawings, specifications, forms of tender, etc.*—When requested by the municipal authority, the Chief Engineer shall, subject to the payment of the fees mentioned in rule 31, prepare working or contract drawings, specifications, estimates, bills of quantities, forms of tender, or other documents or plans required for the execution of schemes, which have been duly sanctioned and which are to be let out by contract, as well as forms of advertisement inviting tenders for such works.

17. *Approval of Chief Engineer to drawings, specifications, forms of tender, etc.*—When drawings, specifications, bill of quantities, forms of tender, and other documents or plans referred to in rule 16 relating to any work are not prepared by the Chief Engineer, such drawings, specifications, bills of quantities, forms of tender and other documents or plans, shall be submitted to him for his approval in writing before tenders for the contract of such work are advertised for.

Note (*i*).—The terms of a contract shall be precise and definite and there shall be no ambiguity or room for misconstruction therein.

Note (*ii*).—When necessary, legal and financial advice shall be taken in regard to the nature and form of a contract before it is finally accepted.

Note (*iii*).—The standard form of a contract shall be adopted wherever possible, and its terms shall be adequately scrutinized before it is finally accepted.

Note (*iv*).—Provision shall be made in contracts for safeguarding properties belonging to Government or local bodies when such properties are entrusted to a contractor.

18. *Advertisements inviting tenders.*—Every advertisement for tenders shall be published in one or more newspapers and shall briefly describe the works required to be carried out and state the place or places where plans and drawings can be seen, and copies of the specifications and forms of tender can be obtained, the deposit to be paid by any person making a tender, and the date and hour up to which tenders will be received.

19. *Approval of plans, drawings, specifications, forms of tender, etc., by the municipal authority.*—All plans, drawings, specifications, bills of quantities, forms of tender and advertisements shall be formally approved by the municipal authority in meeting. Whenever such authority desires to make any alteration in any one of such documents, the Chief Engineer shall be informed and his advice obtained with regard to such alteration.

20. *Submission and receipt of tenders.*—All tenders shall be submitted in sealed covers addressed to the Chairman or the Vice-Chairman of the municipal authority, who shall attend in person at the office of such authority, or at any other place to which it has been directed that tenders shall be forwarded, at the latest hour specified in the advertisement for the receipt thereof. Any tender received after such hour shall not be considered.

21. *Opening and numbering of tenders.*—The Chairman or the Vice-Chairman of the municipal authority shall himself open the tenders, shall number each tender, and shall note thereon the exact time at which it was opened.

22. *Checking and scrutiny of tenders.*—After the tenders have been opened, they shall be—

(*i*) sent to the Chief Engineer; or

(*ii*) in the case of works carried out under rule 13 (*2*) (*a*) under the supervision of a Municipal Engineer approved by the Chief Engineer as being competent to advise on these questions, handed to that officer; or

(*iii*) in the case of works carried out under rule 13 (*2*) (*b*) under the supervision of the District Engineer, handed to that officer,

for check and scrutiny:

Provided that, in case (*ii*) or (*iii*), the Municipal Engineer or the District Engineer, as the case may be, shall, in case of difficulty or uncertainty, consult the Chief Engineer.

23. *Return of tenders after check and scrutiny.*—The Chief Engineer, the Municipal Engineer, or the District Engineer, as the case may be, shall, after checking and scrutinizing the tenders, return them to the municipal authority with his remarks and recommendations.

24. *Consideration of tenders.*—The municipal authority shall in meeting consider the tenders when checked and scrutinized under rule 23, and either accept one of them provisionally or, if the municipal authority thinks it desirable, refer the matter to the Chief Engineer for advice.

25. *Acceptance of tender.*—No tender shall be accepted which is not in order, is not fully priced out, and is not in every way in accordance with the instructions contained in the advertisement inviting such tenders. If the person making a tender makes in it after its submission any reduction or any alteration other than the correction of a palpable arithmetical error, that tender shall be out of order and shall not be considered. In cases where the lowest tender is not accepted the reasons for such non-acceptance shall be recorded, and in accepting a tender the financial status of the contractor shall be taken into consideration in addition to all other relevant matters.

26. *Discharge of tenders and advertisement for fresh tenders.*—If it is found that none of the tenders submitted is satisfactory, or if for any reason it is believed that the conditions of submitting tenders have not been properly understood, so that fair tenders have not been received, all such tenders shall be discharged and fresh tenders shall be advertised for.

27. *Provisional acceptance and submission of tenders to the Chief Engineer.*—After a tender has been provisionally accepted, it shall be submitted to the Chief Engineer, for final approval, together with all other tenders received for the work, and until such approval has been received no tender shall be finally accepted by the municipal authority:

Provided that, in case of a difference of opinion between the municipal authority and the Chief Engineer, in regard to the acceptance of a particular tender, the matter shall, if the municipal authority so desires, be referred to the Chief Engineer, Roads and Buildings, whose decision shall be final and binding on all parties.

28. *Placing and acceptance of contracts.*—Whenever practicable, contracts shall be placed only after tenders have been openly invited. Even in cases where a formal written contract is not made, no orders for supplies shall be placed without a written agreement as to the price of the articles supplied. No contract involving an uncertain and indefinite liability, or containing any condition of an unusual nature, shall be accepted without the previous approval of the municipal authority at a meeting. The terms of the contract, once accepted, shall not be materially varied without the previous consent of such authority.

29. *Bengal Public Works Department Code to apply to certain works.*—Works carried out under the complete supervision or control of the Chief Engineer under rule 13 (*2*) (*c*) shall be governed *mutatis mutandis* by the rules contained in paragraphs 175 to 180 of the Bengal Public Works Department Code (1st edition), and the Chief Engineer shall have the powers of a Superintending Engineer, Public Works Department, as defined in Government orders Nos. 126P.H. and 777P.H., dated the 14th January 1931 and 1st April 1932, respectively.

30. *Examination of contracts by audit authorities.*—The audit authorities shall have power to examine contracts and to report to the Local Government any cases where competitive tenders have not been called for, or where high tenders have been accepted, or where other irregularities in procedure have come to light.

Fees.

31. *Fees.*—For the services of the Chief Engineer specified in column 1 of the following table, the fees shown opposite in column 2 shall be payable by the municipal authority.

Nature of work.	Fees.
1	2
(*a*) Preparation of detailed estimates and drawing for projects and schemes.	2 per cent. on the estimated cost of the works.
(*b*) Preparation of contract drawings, specifications and forms of tender.	2 per cent. on the estimated cost of the works.
(*c*) Examination and check of detailed estimates and drawings for projects and schemes prepared by a different agency.	½ per cent. on the first Rs. 20,000 of the estimated cost and ¼ per cent. on the balance of the estimated cost of the works.

Provided that when the Chief Engineer prepares both (*a*) detailed estimates and drawings and (*b*) contract drawings, specifications and forms of tender in respect of the same works, an inclusive fee of 3 per cent. on the estimated cost of such works shall be payable.

Note 1.—In calculating the fees the cost of survey, land acquisition and supervision shall be excluded from the estimated cost.

Note 2.—These fees shall be included in the estimates and recovered by debit to the works as a first charge on the scheme.

Note 3.—The municipal authority shall pay these fees in cash in accordance with the procedure laid down in article 426 of the Audit Code, if it abandons the detailed scheme at any time, or if, after budget provision has been made for the purpose, it is unable to commence the work within six months or such longer period as the Local Government may be pleased to allow of the final sanction of the scheme.

Note 4.—Under rule 5 fees are to be paid for the preparation of alternative plans and estimates for which application is made by the municipal authority: but revision by the Chief Engineer on his own initiative of plans and estimates previously prepared by him with a view to effect economy or improvements does not amount to the preparation of an alternative scheme for the purpose of this rule.

32. *No charge for services of the Chief Engineer, or his assistants for preparation of sketch of project.*—When the preparation of the sketch of a project is undertaken or supervised by the Chief Engineer under rule 2, no charge shall be made for his services or for those of his assistants, or for the services of Government surveyors, draftsmen and tracers engaged in such work, and drawing materials and instruments required for such work shall be provided at Government expense:

Provided that the municipal authority shall render all reasonable assistance on the spot in supplying survey coolies and survey pegs and in fixing bench-marks, etc., and shall pay the actual cost of the same, and shall also, in each case, provide a suitable office properly furnished for the use of the Government surveyors and draftsmen.

33. *Fees for supervision and control of works under rule 12.*—(*1*) The fee payable for the supervision and control of works by the Chief Engineer under rule 12 shall be 8 per cent. on the actual cost of the work.

(*2*) The percentage prescribed in sub-rule (*1*) shall be debited to the work every month and shall be calculated on the total expenditure on the work for the month, no item of expenditure recorded in the accounts being exempt from the percentage charges.

Note.—The expenditure on land acquisition shall not be included in the calculation referred to in sub-rule (*2*).

Control of export of rubber.

(*2*) The total of all export quotas for any period as so determined by the Indian Rubber Licensing Committee or by the Burma Rubber Licensing Committee shall not be more than an amount which, when the difference between imports of rubber and re-exports of imported rubber in the same period has been deducted therefrom, exceeds the general export allotment or the Burma export allotment, as the case may be, for the same period by more than five per cent.

Excess or deficiency in net exports.

15. (*1*) If in any year the net exports of rubber from British India excluding Burma exceed the general export allotment for that year, or if in any year the net exports of rubber from Burma exceed the Burma export allotment for that year, the export allotment for the succeeding year shall be deemed to be reduced by an amount equal to such excess.

(*2*) If in any year the net exports of rubber from British India excluding Burma are less than the general export allotment for that year, or if in any year the net exports of rubber from Burma are less than the Burma export allotment for that year, a quantity of rubber equal to the amount of such deficiency but not in any case exceeding twelve per cent. of the export allotment for the year in which the deficiency occurred may be exported in the succeeding year and shall not be deemed to form part of the export allotment for the year in which it is exported.

(2) If the unexhausted balance of the quota is sufficient to cover the stated quantity, the Committee shall, subject to the payment of the requisite fee, issue an export licence and certificate of origin covering the stated quantity.

(3) Every licence and certificate of origin shall be in the prescribed form and shall bear the date of its issue, and every licence shall be valid for such period as may be specified therein or until shipment of the consignment covered by the licence provided that such consignment was placed under customs control with a view to shipment before the expiry of the period specified on the licence and has remained thereafter under customs control.

Re-export of imported rubber.

18. (1) Any person desiring to export rubber imported into British India from a place outside India may apply to the Committee for an endorsement on the certificate of origin under cover of which such rubber was imported.

(2) On receipt of such application the Committee shall make an endorsement on the certificate of origin in such form and subject to such conditions as may be prescribed, and such endorsement shall be sufficient to authorise the export from British India of such rubber.

Committee to maintain accounts of quotas.

19. (*1*) The Committee shall maintain an account of every export quota allotted by it showing, in addition to such other particulars as the Committee may think fit, the licences issued against it and the unexhausted balance.

Rubber for export to be covered by licence and certificate of origin.

20. RESOLUTION—No. 1720T.R.

Read—

The Report of the Board of Revenue on the Land Revenue Administration of the Presidency for the year 1933-34.

During the year under report, although the weather conditions were not everywhere favourable, the outturn of crops was, apart from local floods, satisfactory except in the districts of Malda, Burdwan, Birbhum and Hooghly. There were floods in the Damodar, Ajoy and Bhagirathi, and breaches in the Chetua embankment in Ghatal and the Rupnarain embankment in the Tamluk subdivision of Midnapore district. Parts of the 24-Parganas, Bogra, Rajshahi and Malda districts were also visited by floods, resulting in the destruction or damage of jute and paddy. Crops were also injured in various localities by heavy rainfall, water-hyacinth, blight and insect-pests. Cattle disease appeared in various places. A cyclone in Pabna, and a tornado of considerable violence in certain parts of the Rajshahi district, caused damage to standing crops, cattle, houses and property of the people in the affected areas. Prompt and adequate measures were taken by

local officers and others to relieve distress. Agricultural loans and gratuitous relief were promptly supplied by Government, when required; food and medical help by local bodies and local committees; and seeds at reduced prices by the Agriculture Department. With this assistance, people in the affected areas were able to tide over their immediate hardships. Land improvement and agricultural loans to the extent of Rs. 3,72,139 were advanced during the year under report.

Owing to the earthquake of January 1934, the town of Darjeeling and the neighbouring villages sustained considerable damage, but the greatest losses were sustained by the more well-to-do. The labouring classes actually benefited by the earthquake, for a great deal of employment was thereby provided for both skilled and unskilled labour.

The material condition of the people was no better than in the previous year. Though the price of paddy and rice showed some slight rise in the latter part of the year, this did not appreciably improve their condition, in the absence of a rise in the price of jute, which is essentially the money crop of the province. The poverty of the agricultural population indirectly affected the non-agricultural sections of the community also. The landless middle classes with fixed incomes were benefited by the cheapness of food and labour, though this was offset by reductions of pay and increased insecurity of employment in trades and professions. Unemployment among the middle classes continued to be a serious problem.

2. The current demand of land revenue was Rs. 3,07,91,739, which showed an increase of Rs. 2,62,780 over that of the previous year, and collections were 69·42 per cent. of the total and 95·80 per cent. of the current demand. The fact that there were only 1,826 sales as against 31,169 defaults indicates the leniency with which the sale law was administered.

3. In comparison with the previous year, the cost of management of Government estates increased by Rs. 18,336, the percentage of cost on current demand being 8·36 against 8·33 in the previous year. A sum of Rs. 94,425 representing 1·42 per cent. of the current demand was spent on agricultural and miscellaneous improvements, while a sum of Rs. 97,500, or 1½ per cent. on collections from Government estates, was made over to the district boards of the province for development of roads and communications in or leading to Government estates

4. Agricultural demonstrations were carried out with success in the districts of Jessore, Chittagong, Noakhali, Jalpaiguri, Bogra, Malda and Darjeeling. In Faridpur the fifth batch of five *bhadralok* youths were, on the completion of their training in the Faridpur Agricultural Farm, offered lands, but only one of them accepted the offer. In Bakarganj the twenty *bhadralok* youths mentioned in the last year's report formed a house-building society to construct houses at char Fasson. As they could not complete the houses, no lands were settled with any of them during the year. In last year's report, 1,400 acres of char lands were stated to have been settled in Noakhali with educated *bhadralok* young men under the co-operative and the *bhadralok* schemes. Subsequently it was found on enquiry that many of them had sublet their lands in contravention of their agreement and hence their leases were cancelled. As a result, only 800 acres of char lands are now settled with *bhadralok* youths in the district. In Tippera and Pabna also some lands were settled with *bhadralok* tenants.

The number of schools, and of pupils attending them, in Government estates, increased by 11 and 3,156, respectively, during the year under review.

5. A solid block of twenty-two villages with an area of 178 square miles is covered by the Bakarganj colonisation scheme now in its twenty-seventh year. No further areas were colonised during the year and the remaining area of 7,249·01 acres remains unsettled. In the 24-Parganas Sundarbans (colonisation of which was in its nineteenth year) no new area was taken up for reclamation. The total sum advanced by Government for reclamation in the 24-Parganas and Bakarganj, Sundarbans and the total income derived from these areas up to the end of the year under report were Rs. 29,42,671 and Rs. 38,05,246, respectively.

6. The general health of the people in the Bakarganj Sundarbans area was good and crops were fair, but low prices have greatly affected them, owing to the heavy debts they have incurred and also owing to their habit of cultivating their fields with hired labour. In the 24-Parganas Sundarbans the health of the colonists was good, but there was some damage to crops.

7. Taking the province as a whole, relations between landlords and tenants were better than might have been expected. In the Arambagh subdivision of the Hooghly district and in parts of Dinajpur and Bogra, sporadic attempts were made to exploit the economic situation by agitation which threatened to develop into a no-tax or no-rent campaign. Relations between khas mahal tenants and the Government tahsildari establishment continued to be satisfactory.

8. Thanks of the Governor in Council are due to the Board of Revenue for the efficient administration of the branches of work under the Board.

By order of the Governor in Council,

O. M. MARTIN,

Secy. to the Govt. of Bengal.
